Capitol Gossip of Political
Character for Past
Week

THE LIMA NEWS BUREAU
Columbus, July 23

COLUMBUS. — (Special.) —
Shrewd observers who have been out
sounding the sentiment thru the
country districts, which generally
make up their minds about such
things before the cities do, say they
have struck some interesting infor-
mation. They say that the people
generally are now in a state of mind
where they are likely to go any old
way. In other words, they are angry
— angry at bad prices, angry at lack
of employment, angry at prospective
losses, angry at high taxes and just
generally angry. They also add that
they are angry at both political par-
ties. The diagnosis appears to be
that to be called universal under the
circumstances. In the frame of
mind there is no well-defined senti-
ment. Further analyzed, the observ-
ers tell this purveyor of truth that
the anger at the Democrats dates
back to the propaganda directed
against former President Woodrow
Wilson who bore the blame for the
high cost of war and the inconven-
iences of reconstruction and read-
justment. The implied promise, of
course, from the Republicans was
that they proposed to remedy these
things and now the people find that
he troubles they had before were
nothing compared to rockbottom
prices for the things there are to be
old and sky-high prices for the
things to be bought, with bankruptcy
taring tens of thousands in the face.

Leaders of farm organizations say
that they have a hard time head-
ing them from launching into any sort
of scheme far more radical than the
reforms of the Non-Partisan League.
en who are suffering from condi-
tions will try to find a solution and
to pain of their present state is
likely to lead them into anything,
whether it would be considered wise
later consideration or not. The
leaders at rural gatherings say that
they have found audiences so
responsive. They do not care to
argue or to talk, but they listen very
attentively to anything that is
said to them. It is hard to get ap-
pauze. But the assertion is made
at there is a whole lot of thinking
going on and that when they finally
see the blame for the conditions,
they are going to make political
meat out of the fellows they
ld responsible

For the abstract issues, it seems,
there is little care, but for the effect
on business conditions, say these
alists, there is all the care in the
rld. They did not even notice the
variation of peace with Germany
congressional resolution, say the
uts, who are studying the reasons
of the people and they have
a faint interest in the separate
negotiations now going on,
but they want a stabilized Euro-
pe to buy their surplus products
in an opportunity to pull them-
selves out of the present sea of troubles.
the administration can offer it,
y will sing its praises, but the
od of excuses and of blaming it
the other fellow is past.
Because of the tendency toward
rict it seems that elections this
r, primary and general, will
out the lightest vote ever
t. This is confirmed by the
evidence of other states. In spec-
congressional elections only a
handful turned out and the sig-
nificance of an organization to
to be the biggest handful won.
But the test affords not much
reason for the counts repeat that
people are vexed, "mad clean
as they put it and when they
see—well, look out.

Explains, perhaps, why a vein
of pessimism runs all thru their
attitudes toward propositions to reduce
monetary expenses and taxes.
Who, no one can really represent
thoroughly the people are boiling
under at the forty thousand dol-
lar a mile highway. Their contin-
ing to have nullified all the talk about
money in the reorganization, the
national government, the
aganda peddled as to cuts in
is received and filed. The an-
gry comment everywhere is
something like this: "I hope it shows
my tax bill so that I can be-
at at this date they do not be-
it. They have no faith in low-
ers, because every indication
to stable national levies and
reductions in those of the state
are unpleasant news, but facts

WORKERS ARE HURT IN TANK CRASH

2 MEN FALL 25 FEET INTO OIL REFUSE

ROOF CAVES IN

Victims Rescued by Fellow
Workmen Who Use
Ropes

Isaac A. Broderick, 48, of 722 Cen-
ter-st., suffered injuries which par-
alyzed his right arm and hand,
when he fell from the top of a tank
of the Illinois Pipe Line company,
located near the J. C. Linneman
farm in Shawnee-twp., Saturday at
3:30 o'clock. Broderick is an em-
ployee of the pipe line company.

E. A. Marshall, 50, residing at
534 W. Kibby-st., chief engineer of
the Pipe Line company, who fell at
the same time as Broderick, was un-
injured.

The two men landed in a fifth bed
of bad oil, slime and mud. Both
were submerged after they had fal-
len a distance of 25 feet from the
top of the tank. The accident was
due to the breaking in of the roof
over the tank.

IN CRASH OF TIMBER
A quantity of timbers crashed in-
to the tank with the men. Chief
Engineer Marshall, who was unin-
jured, was able to extricate him-
self from the debris and maintain a
standing position in the five feet of
oil. He worked until he got Broder-
ick to his feet and by clinging to
the timbers, both were able to keep
their heads above the mixture.

More than half a dozen men
were employed in tearing down the
tank. By means of ropes the two
men were rescued from the tank.

Broderick, who weighs 250 pounds
and is six and one-half feet tall,
was not so easy to raise to the roof
and it was a problem to get him
down after once he was extricated
from his perilous position.

An ambulance was in waiting and
as soon as he was lowered to the
ground he was taken to the City hos-
pital. There it was found his right
arm had been cut open entirely
near the shoulder, by falling tim-
bers or iron in the fall.

NERVES ARE SEVERED
Surgeons called to care for
Broderick, announced that the cut
in his arm severed numerous small
nerves, thus causing the arm and
hand to become paralyzed. Broder-
ick is unable to move his hand or
his fingers.

It will be necessary, surgeons
state, to unite the nerves, which
may require two years, before Bro-
derick will have the use of his hand
and arm.

Unless infection should set in, his
recovery is believed assured. Bro-
derick was a former Ohio Electric
motorman, long in the employ of
the company in Lima, finally reach-
ing the position of Ohio Electric dis-
patcher.

Later he gave up service with
the Ohio Electric company and went
to work in the oil fields of Okla-
homa. Upon his return here several
years ago, he was employed by the
Illinois Pipe Line company. Both
Broderick and Marshall are married.

War To Death For Ireland
Seen If Peace Plans Fail

(By CHARLES M. McCANN)
DUBLIN — Ireland's peace con-
ference will begin Monday.

Definite arrangements were made
tonight for placing the British gov-
ernment's peace suggestions before
the Dail Eireann on that date.

According to all indications Sat-
urday night the process will be a
disputed one. "President" De Valera
on Monday will formally read, in
secret session, Premier Lloyd
George's proffer. There may be
some debate, but that is doubtful.
Those Dail Eireann members who
now are at liberty are believed to be
well informed on the contents of the
offer.

WILL RETURN TO LONDON
Other sessions are to follow that
of Monday. Within two weeks De
Valera is expected to return to Lon-
don with word that the offer is not
entirely satisfactory. The chief
concern of the Dail Eireann, it
appeared Saturday night, is to so couch

RAILROAD MEN RECEIVE FIRST PAY UNDER WAGE CUT DURING THIS WEEK

Employees of the different rail-
roads will receive their pay checks
during the coming month for the
first time since the new wage ruling
went into effect. The ruling of the
railway wage board, reducing wages
went into effect July first and pay-
ments are now being made for the
first half of the month.

Reductions average 12 per cent,
with some of the employees hit hard-
er than others. Conductors, engi-
neers and other trainmen will draw
something like \$19.20 a month less
pay this month than they did last
month. Common laborers will re-
ceive practically the same pay as
before the war time increases were
granted.

Altho wages of the higher officials
were not reduced by the labor board
because of lack of jurisdiction, sev-
eral railroads have announced a re-
duction in all classes of officers' wages that were raised after May 1,
1920. This will mean that all em-
ployees of the railroads will suffer
cut in wages.

**KU KLUX ADD TO
TAR VICTIMS**

Activities Of Klan In Southwest
On The Increase.

DALLAS, Texas.—The Southwest-
ern masked band league, in a week-
end spurt of "activities", had
brought its score near the century
mark Saturday night.

Reports of demonstrations received
by the United Press—some bearing
the alleged official seal of the
Ku Klux Klan; others having ear-
marks of "outlaw" bands—stirring
in during the past 24 hours, have
brought the total to well above
eighty.

Following closely the announced
intentions of Imperial Wizard Wil-
liam J. Simmons of the Ku Klux
Klan in Atlanta, that an investiga-
tion body would be sent to Texas and
Oklahoma, to make an unbiased in-
vestigation of the activities, word
came from Austin, Texas, of a move
started to thwart Simmons' plan.

Latest reports of "activities" of
masked marauders in the southwest
were as follows:

Lufkin, Texas—George Leo, serv-
ice driver, seized and dumped on
the streets wearing a coat of tar
and feathers.

Harlingen, Texas — Warnings
signed by "Ku Klux Klan", advising
"loafers, gamblers and evil doers"
to "seek other fields."

Oklahoma City—Letter written
on Ku Klux Klan stationery and
bearing the alleged official seal of
that order, and containing two \$50
bills, received by the United Provi-
dent Association to be turned over
to the "babies benefit fund".

Bishop Texas—The local news-
paper received a communication
signed "K. K." reading "we are
here and ready to act. Let this be
a word to the wise, no wrong doers
take heed; we mean business."

**TOLEDO BUSINESS MEN
SWINDLED OF \$13,000**

CLEVELAND—Confidence men,
posing as government agents and
wealthy stock brokers, were being
sought by police today for swindling
a Toledo business man out of \$13,-
000 here recently.

The latest victim of what is be-
lieved to have been one of a series
of similar swindles, is said to be E.
W. Hamann, a tailor, of Toledo, who
is alleged to have been interested
by a "government agent" in select-
ing a site for a government airplane
factory and later swindled in fake
stock market transactions.

His refusal that the British govern-
ment will not hesitate to continue
conferences with the Irish leader.

Dublin reflected the joy which
spread thruout southern Ireland
when the truce was declared. This
feeling was mixed, however, with
some apprehension over the course
of the Sinn Feil parliament. The
people have been assured that if
the peace negotiations are broken
off now it will mean war with the
British, and war to the death.

BRITAIN WAR PLANS
Britain's war plans have been cir-
culated freely and have impressed
the Irish as being the most repre-
sive measures ever contemplated by
the government.

Dublin for the first time in two
years was enjoying peace as a result
of the negotiations. Cinemas kept
open until long after the former cur-
few hours, meetings met with no in-
terference and soldiers no longer
walked the streets bearing the men-
ace of arms.

LEN SMALL CHEERED AT G.O.P. MEET

Illinois Executive Applaud-
ed for 30 Minutes at
Political Rally

ATTACKS ENEMIES

Conference With Mayor
Thompson Held by State's
Accused Chief

(By CARL VICTOR LITTLE)
CHICAGO—Chicago feted the in-
dicted Governor of Illinois Saturday
night.

Len Small, dodging arrest on
charges of juggling millions in state
funds and pocketing the interest,
was the chief speaker at one of the
biggest political rallies ever held in
Mayor Thompson's stronghold. The
Governor was cheered for 30 min-
utes when he protested his inno-
cence.

The Governor, surrounded by a
bodyguard of huskies, told his ad-
herents at the Republican picnic that
he was innocent of any wrong doing
and branded Attorney General Brun-
dage, his political foe who secured
the indictments, as a "character as-
sassin."

MESSAGE TO PEOPLE
Said the Governor of Illinois to
the people of Chicago:

"This whole thing was started
when, in pursuance of my campaign
pledge of economy, I trimmed the
appropriation of the attorney gen-
eral's office.

"I have defied the monied inter-
ests of the state and the indictment
was their answer.

"I am innocent of any wrong do-
ing."

Governor Small, on the advice of
his attorneys, has refused to submit
to arrest on the grounds it would be
a surrender of the executive powers
of the government to the judiciary.

COURT THREAT
The court at Springfield threatens
to attempt to seize Small by calling
out a sheriff's posse if he does not
surrender Tuesday.

Small, it is understood, is ready
to call out the militia to protect him
from activities of the sheriff.

Abraham Lenington Small is a
banker farmer whose home is in
Kankakee.

Following several terms in the
state legislature when he trailed
along with the old Lorimer machine,
Small joined hands with William
Hale Thompson, political dictator of
the state, and was elected treasurer
and then chief executive.

It is generally admitted that the
continuance of the Thompson mach-
ine in power depends on Low Small
acquire himself in the present graft
scandal.

Small and Thompson were closeted
before and after the picnic Sat-
urday holding a council of war
against their political enemies.

Rumors around the city hall fol-
lowing the conclusion of the war
pow-wow were that Small intended
to stay in Chicago for the next sev-
eral days, thus escaping the juris-
diction of Sangamon-to courts.

The warrant which is to be served
Tuesday would then be sent to Sher-
iff Peters, of Chicago, and the whole
matter thrown before the Cook-co
courts.

**U. S. SUB CHASERS MAY
GO AFTER RUM SMUGGLERS**

WASHINGTON — The govern-
ment's war-born mosquito fleet of
gasoline submarine chasers may be
turned loose on the booze smug-
gling ships operating from Cuba and
the Bahamas and along the New
Jersey and Massachusetts coasts. It
was learned Saturday night at the
offices of the federal prohibition
unit.

Prohibition officials believe chas-
ers will help them keep the waters
inside the three mile limit free of
liquor smugglers and prevent the
landing of whiskey on the shores
of the United States.

Officials said they have word of
an international liquor smuggling
syndicate which is landing millions
of dollars worth of whiskey in this
country.

Under the plans for exchange of
government property between do-
partments, just worked out by
Budget Commissioner Dawes, the
transfer of the sub-chasers to the
prohibition unit is feasible, it was
pointed out.

STRANGE REPTILE IS CAPTURED; IS TURNED OVER TO FAUROT ZOO

A 20-inch lizard-like animal be-
lieved to be an iguana, was captured
in Lima a week ago by John Coffey,
1904 N. Main-st. It escaped from
him during the week, and was recap-
tured and presented to Faurot park
zoo Saturday.

The animal is believed to have es-
caped from a carnival recently show-
ing in this city.

It was first seen in the back yard
of the Coffey home by Catherine
Coffey. She called his attention to
it and Coffey succeeded in forcing it
into a box, from which it escaped a
short time after. Following the re-
capture, Park Superintendent Zart-
man was notified and the animal
was removed to the zoo.

It is much like a lizard, but con-
siderably larger. Zartman declares
the reptile measures twenty inches
in length. Its body gives the im-
pression of being beaded. It is dot-
ted with the little black and pink
beads.

An iguana is supposed to be of
the lizard family and is found com-
monly in Central American coun-
tries. It is considered poisonous.

11 RAILROADS ASK RATE HEARING

Demand Commissions Order For
Slag Schedule Be Set Aside.

COLUMBUS. — Eleven Ohio rail-
roads Saturday filed a petition with
the state public utilities commis-
sion asking for a rehearing and the
setting aside of an order of the com-
mission June 28, and served on them
July 5, ordering rates for carrying
slag reduced.

Slag is an important road build-
ing material, and the cost of haul-
ing it is an item of much importance
in the state's highway construction
program.

The petition filed by the railroads
asserts that the "order was made
without proper reference to the fi-
nancial conditions of the carriers."

The eleven lines, together with the
Detroit, Toledo and Ironton rail-
road, were named defendants recent-
ly by the Wellston Slag Company,
complaining against rates. In the
meantime the D. T. & I. has an-
nounced a reduction of 20 per cent
in all commodity rates. It is not
among the roads represented by to-
day's petition.

The battle in the state to bring
freight rates down enlisted the aid
of coal companies also today. They
have complained to the commission
against the rates imposed by the
carriers of coal.

The eleven roads seeking to have
slag rates remain at present levels
are: The C. C. C. & St. L., Ches-
apeake and Ohio, Erie, Hocking Val-
ley, Kanawha and Michigan, N. &
W., Pennsylvania, P. C. & St. L.,
P. & O. C., and the Zaneville and
Western.

TWO DIE IN BLAST

Cleveland Men Blown To Pieces
in Dynamite Explosion.

CLEVELAND — Two men were
blown to pieces, one was perhaps fa-
tally injured, and a fourth slightly
hurt in a premature explosion of
dynamite Saturday at the clay bank
of the Cottonwood Shale Brick and
Supply Company. The dead are Ce-
sar Kompara and Vincent Legar, la-
borers. The explosion occurred
when Kompara and Legar were tam-
pering with two sticks of dynamite
in a hole in the clay bank, the dy-
namite prematurely exploding. The
force of the explosion threw the
dead men fifty feet.

Officials of the plant are unable
to account for the accident.

**\$10,000 Reward Offered For
Missing President Of Bank**

CHICAGO. — A price of \$10,000
was placed Saturday night on the
head of the youthful Warren Spur-
gin, president of the Michigan-av
bank, missing with hundreds of
thousands of the bank's funds.

Detectives figured Spurgin had a
six day start before investigators
found the shortage, now totaling
nearly \$1,500,000 in the bank's ac-
counts and started on his trail. Mrs.
Spurgin also is missing.

FORGERIES FOUND
Forgeries amounting to \$500,000
were revealed Saturday in the bank's
accounts. Fake mortgages and
notes, which were purported to have
been given by prosperous farmers of
Indiana, Illinois and Iowa, were
claimed to have represented money
loaned out by the bank.

C. A. Brutel, cashier of the bank,
said the notes and mortgages disap-
peared with Spurgin.

Oil stocks were said to have been
substituted for the bank's for-
securities, without knowledge of the
other officers. Reports Saturday
were that speculation in oil stocks
probably caused Spurgin's financial
troubles.

LIFE ENDANGERED
Petition will be made for appoint-
ment of a receiver. Doors were
closed Thursday. Hope was ex-
pressed that depositors might get sixty
cents on the dollar.

Spurgin has been in financial dif-
ficulties for several months, his
friends said.

Authorities feared for Spurgin's
life, unless he is taken into custo-
dy. Some of Chicago's leading under-
world characters carried large po-
sitions in the bank. One gunman was
killed last \$30,000 in the crash.
Officials feared if Spurgin was not
apprehended one of the gunmen who
lost money in the bank might trail
and kill him.

WASHINGTON — Violence was
narrowly averted at the House Ber-

Saturday when Representative John-

Charles A. Braun, Philadelphia,
brother of Grover Cleveland Ber-

As a result of a series of cross

ORDER HALTS PAVING ON E. KIBBY-ST

County Is Denied Free Wa-
ter for Boilers of Street
Rollers

DOING WORK FREE

Service Department Ultima-
tum Nettles County
Commissioners

Lima may lose \$20,000 worth of
free improvement in E. Kibby-st,
being laid at county expense, be-
cause of the demand made by the
water works department, on orders
said to have been issued by Elmer
McClain, director of public service,
that the county commissioners pay
for water being used in the boilers
of street rollers used on the job.

Notification that the city expect-
ed to be paid for the few hundred
gallons of water consumed, was
made Saturday by W. E. Booth, sec-
retary of the water works depart-
ment. In a conversation with Glen
I. Wallace, clerk of the board of
commissioners, Booth said he was
acting on written instructions from
McClain.

WORK IS HALTED
When the commissioners learned
that the service department wanted
pay for the water used, they halted
work on the improvement. Accor-
ding to commissioner W. W. Craig,
the board took the attitude that if
the county was willing to spend an-
nually \$20,000 on paving E.
Kibby-st from Prospect-av to Bel-
fontaine-rd, the city should be will-
ing to donate the water required by
the paving gangs.

"If they do not want to co-oper-
ate," he declared, "we will quit."

Work on the improvement was in
progress for some time, according
to Commissioner Craig, the construc-
tion being under direct supervision
of the commissioners and City
Surveyor Miller. The pavement
contemplated is a water bound mac-
adam, surfaced with tar or some
other material. The base is already
laid from Prospect-av to the D. T.

PRESIDENT'S ARMAMENT CALL READY

Summons for World's Conference Will be Issued this Week

QUESTIONS CLEAR

Japan Prepared to Fall In Line for Washington Parley

(By A. L. BRADFORD)

WASHINGTON — President Harding's formal call for the great powers of the world to meet in a disarmament and Pacific conference in Washington will be issued some time next week, it was predicted in official quarters Saturday night.

By the end of next week, it is confidently expected here, the following questions will have been cleared up, leaving the road clear for the formal call for the Washington conference:

1.—The question which has arisen over Japan's participation in the conference will be settled by the receipt of a communication from the Tokio government agreeing to the proposed discussion of the Pacific and Far Eastern questions, possibly with reservations, but still virtually accepting Japan's complete acceptance of the invitation sent the powers two weeks ago by President Harding and Secretary of State Hughes.

2.—Differences of opinion that have developed between Washington and London over the date of some Pacific conference, the date in London is postponed to the date of the conference after November or to hold a preliminary conference in London on the Pacific and Far Eastern questions.

HUGHES ANXIOUS
Secretary Hughes is understood to be anxious to issue the formal invitations or call for the conference soon as possible in order to have the conference virtually an accomplished fact, and so as to avoid a multitude of exchanges between Washington and other capitals over details of the conference which might develop into long drawn out negotiations on difference of opinion threatening the successful opening of the parley.

While sufficient time is believed to have passed for the diplomatic advisory council in Tokyo to reach a decision on the question of Japan's participation in the proposed Pacific and Far Eastern conference, neither Secretary Hughes nor Ambassador Gihara of Japan had been advised tonight of any action. However, no anxiety is felt, and it was believed probable that favorable action had been taken by the advisory council, regarded as the supreme authority in Japan in such matters.

HARVEY ADVISED
It was stated authoritatively that the United States government had notified the British government through Ambassador Harvey that it does not believe there should be any preliminary conference in the English capital nor that there should be any postponement of the date of the Washington disarmament and Pacific conference. This communication, sent in response to various suggestions from London, is now believed to be before the British government and the Dominion Premier. An answer is expected which will pave the way to an agreement on these points.

So soon as these questions now existing between Washington and Tokyo and London are cleared up, Secretary Hughes is expected to effect quickly an agreement among the powers on a date for the opening of the conference.

GOOD PROGRESS IS MADE IN PLANNING MOOSE FAIR TO OPEN HERE AUGUST 18

Rapid progress was made during the week which ended last night in plans for the "Made in Lima" exposition which formally will open the new home of the Moose lodge, West and North-sts., from August 18 to 27, inclusive.

Letters were mailed Saturday from exposition committee headquarters to every Moose lodge within one hundred miles of Lima, inviting delegations to attend the big affair here on "Moose Night," which will be on August 25, "Moose Night" is expected to bring at least 5,000 out-of-town members of the organization to Lima.

Among the celebrities of the lodge, who will visit this city during the exposition, is Judge Clarence L. Burnett, national deputy director. Judge Burnett will be in charge of the formal ceremonies which will open the exposition. Starting tomorrow, fifteen hundred workers for the Lima lodge will begin a campaign for the sale of certificates for the exposition.

DIVORCE RATE CLIMBS DOUBLE PACE IN ENGLAND

LONDON — In more than 40 per cent of the divorce suits heard during 1919 there were no children of the marriage.

Husbands are more faithful than wives. The first five years of married life are the easiest.

These striking facts are gleaned from a collection of official statistics, issued as a White-paper by the Home Office.

The number of divorce suits rose from 2,689 in 1915 to 5,763 in 1919, an increase in one year of 114 per cent. The total for 1919 was three and a half times higher than that of 1915.

The most sensational comparison made in the report is that in which the divorce petitions are classified as follows:

Petitions by husbands 1,132
Petitions by wives 1,630

PROTECT FAIR BY RAIN INSURANCE

No Chances To Be Taken On Wet Weather Loss.

Aggressive efforts to secure the North-western Ohio Duroc association show for the 1922 Allen-co fair will be made at a picnic of members of the association held at Ottawa, July 28. This action was decided upon at a meeting of the fair board Saturday afternoon.

This is one of the big shows of the state. Efforts will also be made by members of the fair board, who will attend the meeting Thursday at Ottawa, to secure a large portion of the lands from this part of the state for the 1921 fair. As the Allen-co fair will be held August 23 to 26, just before the state fair, it is believed that a large number of the exhibitors will stop off here on their way to Columbus with their exhibits.

INSURED AGAINST RAIN
"Rain insurance" has been taken out by the fair board for this year's fair. M. L. Mayer, secretary of the board, stated Saturday that the board was going to get even with the weather man this year. Heretofore it generally has rained during fair week, cutting down the receipts to an appreciable extent. Under the new plan the board will not lose account rain.

More premium lists have been sent out this year than ever before, according to Mayer and the demand continues very heavy. Those who have not received one can be supplied at the office of the secretary or copies will be mailed to those who send in their address by mail or telephone. Concessions for the fair have been practically sold out. Great care is being exercised in the class of attractions permitted and no gympies will be allowed on the grounds. Every indication points to a very successful fair.

FATALLY HURT IN BUGGY CRASH

Mercer-co Farmer Near Death—Accidents at Celina.

CELINA—(Special)—William Buck, 67, former residing five miles west of Celina, was probably fatally injured here at noon Saturday, in a runaway accident, when he was thrown a distance of 15 feet from a buggy in which he was riding with his daughter, Artie Buck, eight years on his head on a paved street. The girl was uninjured.

Buck and his daughter drove to Celina and when they started the animal Buck was driving. It became frantic and its terror was augmented when a Cincinnati Northern R. R. train passed. Buck was unable to control the horse.

The buggy struck the street curb and was wrecked. Buck and his daughter were thrown out. Late Saturday he was still unconscious as a result of concussion of the brain and little hope was held out for his recovery. Buck's nose is broken, there is a contusion over the eye, his lips are lacerated and internal injuries are thought to have been sustained.

The horse, freed of the buggy, collided with an auto and was so much injured, but ran three miles into the country.

Oscar Green, butcher, while cutting meat here Saturday, almost severed the index finger of his right hand when a sharp knife he was using, slipped.

Philip Eckert, Liberty-st., had a right foot mashed Saturday when one of the wheels of a water tank wagon passed over the member.

Royal Neighbors of America will meet at Solar Hall Sunday at 2:30 p. m. for practice. The funeral of Mrs. Sarah Albrecht will be held Monday at 2 p. m. at her late residence on E. Second-st. All Neighbors are requested to meet at Second and St. John's Sunday at 1 p. m. to attend the funeral.

TEACHING QUOTA IS FILLED

Instructor Provided For Every School In County.

Every school in Allen-co is supplied with a teacher for the fall term, according to C. A. Arganbright, county school superintendent. This is the first time in several years that all schools have been provided for so early in the year.

Lack of employment in other lines of industry, together with general reduction in wages, is turning more men into the teaching profession. While no percentage has been calculated, it is known that there will be considerably more men teachers this year than last. The quality will also be higher, as the number to select from has been larger.

It is possible that after August first there will be some vacancies. All teachers who desire to give up schools must do so before that date, or be penalized by having their certificate suspended for the period of their contract. This is a new provision of the school code and has been adopted to prevent last minute contract dumping.

"With the opening of the next school year only a little over a month away, everything is pointing toward one of the most successful terms ever experienced," Arganbright said. "With a better quality of teachers and enthusiastic school board members, there is no reason why war conditions should not be forgotten."

ONLY TWO PAVING STAND WEAR

Brick And Asphalt Retain Identity In Test

COLUMBUS — (By Associated Press)—The experimental road just south of here, built in 1912 by the state highway department in an effort to determine the comparative value and length of service of different types of paving, again is the subject of a test.

Since the road was built, little or no account has been taken of it until recent agitation among the alleged destruction of state and county roads by tractors. An investigation made by James M. Marker, former state highway commissioner, under whose supervision the road was built, shows, he said, only two of the original twenty-one sections of paving have retained their identity, the brick and asphalt sections.

The cost to the state for repairs on the cement, macadam, and bituminous type, according to Marker, each year has been on average of \$1500 a mile, and the repairs in 1917, amounted to more than \$3000 a mile, he said.

As a means of testing the different types and makes of paving brick, as well as the fillers which give the best service, when used with brick, 15 different sections were laid, with one of asphalt block. State highway department officials are being kept advised of the results of the investigation.

SHERIFF SELLS LOT AT MORE THAN APPRAISAL

Sheriff Charles W. Baxter Saturday sold at public auction a piece of property which brought \$100 more than its appraised value. Usually property sold at public auction brings much less than its appraised value. The law requires such property must sell at not less than the value fixed by appraisers.

The property concerned is lot 6737 in Parkside addition to Lima. It was appraised at \$900. Charles H. and Catherine Truesdale paid \$1,000 for it at public auction Saturday.

Elmer D. Webb purchased lot 6833 in Parkside addition to Lima at \$300. The property was appraised at \$300.

The lots were sold to satisfy the court action of Elizabeth Caddy McDowell against Milton Caddy and others, for partition.

Allen-co officials are given a clean bill in the report of T. L. Davies, of the state auditor's department, which was received Saturday by C. R. Phillips, county auditor. Recommendations were made however, regarding the conduct of the various offices which will result in more efficient service.

Many of the recommendations made do not apply to present officials, but do their predecessors in office.

CLEAN BILL GIVEN OFFICIALS

Report Of State Examiner Contains Criticism, However.

ADVISES ON OFFICE CONDUCT

Long Period is Covered In Allen-co. Check.

Allen-co officials are given a clean bill in the report of T. L. Davies, of the state auditor's department, which was received Saturday by C. R. Phillips, county auditor. Recommendations were made however, regarding the conduct of the various offices which will result in more efficient service.

Many of the recommendations made do not apply to present officials, but do their predecessors in office.

Davies checking up on the county offices in Allen-co for the period between January 28, 1918, and November 1, 1920. The report was not completed however, until sometime during the last spring. Considerable change occurred in the personnel of the officials during this time.

The report finds that about \$1,039.88 was owing the county from various sources. A part of this amount was due from officials, and some from firms and individuals. A large portion of the money has been paid in.

OFFICE IS COMMENDED

The check on the county auditor's office is the first one considered. During the first two years the office was held by Thomas A. Welsh, and the remainder of the time by C. R. Phillips, present incumbent. On the whole the conduct of the office is commended. Criticism however, is made on the payment of county bonds, which if not properly cancelled might fall into unscrupulous hands and be presented for payment a second time.

The criticism, according to Auditor Phillips, was caused by the discovery by Davies that one or two bonds in an old issue had not been stamped paid, although the books in the office showed that the series had all been taken up.

Criticism is also made because the delinquent tax duplicate and personal tax have been made at the same time, when the law contemplates otherwise. It is difficult to determine collection on this account. Auditor Phillips states that his office has always turned out its work, and that no criticism was made on this score during a previous audit.

PHILLIPS EXPLAINS

Davies, also finds that the office has not proper estimate record, covering buildings and bridges. None is needed for the former purpose, however, as the county has not constructed a building in recent years. The report states that bills are filed by funds and by number. In explanation, Auditor Phillips states that bills are so filed temporarily, and later filed by number, as required by law. The method of the office in paying refunders on taxes is also hit in the report. Refunds are made by the auditor on current taxes, and a record filed with the commissioners. On back taxes, a bill is made. Davies considered it proper to make the bill in all cases.

With the exception of a small defect due the association from Treasurer Creeman, the affairs of the fair board were found clear.

The report finds that the fee book was lost by Geo. Clem, clerk of the court prior to January 1919, and the cash book fails to show receipts from trappers and hunter's licenses. No other criticism is made.

CARELESSNESS CHARGED

Carelessness in allowing bills is also alleged, but the honesty of the accounts is not questioned. It is recommended, however, that bills against the county be recorded in detail to facilitate checking. Such procedure is a mark of good business principles, he says. It is alleged that charges are recorded that are not supported by journal entries. The report also sets forth instances of where duplicate payments have been made on petty accounts. One of these cases is where the county during 1919 paid a Lima concern twice for the same mop. Another instance the report criticizes the commissioners for paying a bill of \$4 to S. M. Fletcher for a hat lost while serving on a jury. There is no law to cover petty losses by jurors during a trial, Davies declares.

The county has been re-imposed for a number of these items. The commissioners comes in for adverse comment on making of contracts, the journal entries in instances failing to show each separate step in succession.

It is also charged that the commissioners have not purchased supplies from the state, as required, and that freight bills have been paid without having the actual bill to support.

The report also charges that the commissioners have failed to observe the semi-annual appropriation law passed in 1911, requiring them to make appropriations as to funds.

DISREGARD OF LAW ALLEGED

One section the report holds is that the auditor and treasurer are issuing and paying vouchers regardless of the law.

Since the termination of the report one change has occurred on the board. A. J. Gray, succeeding M. C. Crossley, J. G. Mackenzie and Walter W. Craig are still members.

Regarding the county home, the report states that there is evidence that aid has been given persons not residing at the home. Many of these cases should have been cared for by the city of Lima, or the township authorities, it is said.

In examining the records of minor courts, the report states that during 1918 and 1920, Chief of Police O. J. Roush was paid a total of \$34.93 for conveying prisoners to the workhouse. The fees for this service were eliminated by law some years ago, according to the report, and limited to the officers' actual expenses. Roush has not re-imposed the county, the report states.

Instances of overpayment for legal services were discovered. At-

FAIRS OF THE RECORDER'S OFFICE FOUND TO BE IN EXCELLENT CONDITION

Dr. DeWitt T. McGuff, and A. C. Adams, former coroner and present incumbent are found to have overdrawn fees allowed to have been overpaid \$1.90 and Dr. Adams \$18. The discrepancy are said to be due to mis-calculation of mileage.

COURT NOT CRITICIZED

No criticism is directed at either the common pleas court or children's home. The affairs of the court under Judge Wm. Klingner are found to comply with the law in all respects.

Due to sending a bill to the wrong source, the city owes the county \$15.83 for services of H. E. Simon, in the accounts of the election board.

The system of accounts used by the humane society are pronounced antiquated. No other findings are made. Overpayments to members of the jury commission have been made, it is alleged. According to Davies members are entitled to payment for 10 days a year, at \$5 a day. The following amounts in excess of the limit have been paid: Gus Kalt, \$15; C. W. Westby, \$25; Ray John, \$10.

Affairs of the law library are found in good shape.

In the check on the probate and juvenile court it was found, that items amounting to \$38.50 had been paid but not recorded in the cash book. They were inserted later by order of Judge F. C. Becker, and payment was made the following month.

The prosecutor's office, held by Congressman John Cable and later by Eugene Lippincott, is criticized for failure to see that county officials make annual reports of uncollected fees.

SURVEYOR E. A. MILLER, ESCAPES WITHOUT CRITICISM.

In checking the sheriff's office it was found that S. E. Eley, predecessor to Sheriff Baxter, had collected \$14.90, the items for which had not been checked in probate court, and \$42.70 for federal prisoners, largely slackers and army deserters. The report states that the government and not the county should have paid the surplus of unknown source.

Found in checking Sheriff Baxter's accounts was turned into the treasury. Sheriff Baxter also was found to have collected \$82.70 in fees which had been abolished by changes in the law. A refund has been made.

Separate accounts for the two banks, designated as county depositories is one of the recommendations as result of the audit of Treasurer Lehr E. Miller's office. Interest amounting to \$121.79 due from the American bank was paid the county February 26, the report shows. The item comprises more than a third of the money found to be owing the county during the three years covered by the report. Errors arising from unknown causes created a discrepancy of \$61.81 at one time, the report shows. This was later rectified by a re-checking.

CRITICISM CONSTRUCTIVE

The report covering more than 100 pages, deals with the failure of various officers to do things Davies considered should be done, rather than with the actual working results attained.

In the preface of the report, it is stated that no serious shortages and discrepancies were uncovered, and the criticisms made are intended as recommendations to aid the officials in their duties.

PRIMITIVE PEOPLE FOUND ON ISLE

South Pacific Tribe Live As in Stone Age.

By WILLIAM L. MALLABAR
LONDON — International News Service) — Living in the same manner as the men of the Stone Age, a tribe exists on a little island in the South Pacific.

Such is the story told by Dr. Northcote Deck, a missionary, who lives at Aola and who has visited the island where these prehistoric people have their being.

"There are only about five hundred inhabitants on the island," said Dr. Deck, in a recent communication to the Royal Geographical Society, and because of their virtual isolation and thru lack of anchorage for a ship, even their dialect has never been studied.

"They are almost cut off from the outside world by walls of coral limestone, and I found them to be still living in what might rightly be described as a manner of before the Stone Age."

"Iron is the thing they most covet, and for it they will exchange every available object. The caves of the island are swarming with flying foxes, whose teeth seem to form the only currency on the island."

"The islanders are great fighters and wrestlers. They use thrusting spears of hard black wood, twelve feet long, and fifty six pounds in weight, with fifteen to twenty barbs on each side. The making of these spears seems to be a lost art."

"Throwing spears are also used, with points made of human leg and arm bones. Some of them are tipped with a bone splinter, which is designed to break off in a wound and infect it."

"Altho most friendly, these people are great thieves. They murdered three native teachers. They murdred them apparently for the sake of the few goods they had."

"They seem to feel keenly the monotony of their isolation, and showed a settled melancholy both in their faces and in the cadence of their voices. Their only sort of music, to which they dance, consists in the tuneless beating of a log."

Dr. Deck has presented to the British Museum a stone mace used by these people. It is symmetrically ground, with eight knobs bound to the handle with sinnet, and is seemingly for ceremonial use.

LIMA INDUSTRIES PAY MILLIONS

Fourteen Have Pay Roll Of Over Hundred Thousand Each.

STONE QUARRIES IMPORTANT

281,883 Tons Are Used For Bal-last And Roads.

Wages paid by Allen-co industries during the year 1920 aggregated \$15,739,490, according to a report made by the Division of Labor Statistics, Ohio Department of Industrial relations. This is an increase of \$5,245,824 over wages paid in 1919. Of the industries reporting five had payrolls exceeding \$1,000,000 each. These manufactures included locomotives, foundry and machine shops, automobiles and parts, cigars and cigarettes and refined petroleum. There were fourteen industries with payrolls over \$100,000 a year each. Wages paid by food, metal and paper products and lumber industries aggregated approximately \$300,000.

Of the 7416 adult male wage-earners in the manufacturing industries 3414 received less than \$30 per week. The average wage paid was a little less than \$35 a week. Only 348 received less than \$18 a week while 994 were paid more than \$50 a week. The average wage paid female workers in the same factories was \$18.71. Of the 1576 employed only 682 received less than \$18 a week.

Retail and wholesale stores furnished employment to 1400 persons. The highest wage paid female workers was \$35 a week while 20 per cent of the men received a sum greater than that amount. The total amount paid was \$1,259,114.

Large fluctuations were seen in the number employed in the trades allied to construction work during 1920. The minimum was seen in February when 351 were employed and the maximum seen in September when the total reached 716. Of the \$337,203 paid by the industry \$784,497 reached its wage-earners. Eighty-five per cent were paid over \$25 a week and 43 received \$35 or more per week.

One of the natural industries of the country is limestone quarrying. During 1920 the output of eight quarries amounted to 227,993 tons of limestone. The average active operation was 121 days. Wages aggregated \$654,557 were paid. Of the production 281,883 tons were used for ballast and macadam, 4,183 tons for concrete work and 4,183 tons for various purposes.

RULING AGAINST OIL COMPANY

Permanent Injunction is Denied In Van Wert Case.

VAN WERT — (Special) — Contention between the Lily White Oil company and the city of Van Wert, in the matter of the location of an oil tank on the corner of Main-st and Washington-st, has been referred by Judge H. W. Blachly of common pleas court, who refused a permanent injunction sought by the oil company, to restrain the city from causing the removal of the station.

A temporary injunction was dissolved Friday and council can now deal with the situation. The trouble leading to the contention between the oil company and the city arose some time ago when it was charged that the company installed two pumping stations along E. Main-st, when the request had been made for only one pump.

Maggie McCray was granted a divorce Friday from James E. McCray, on the grounds of gross neglect of duty. The plaintiff was given the custody of their children, the husband to pay \$25 per month for their support. Clinton C. and Pansy Murphy were also divorced.

The body of Frank Mohr of Hooplin, whose death occurred in service overseas, arrived here Saturday. Funeral services will be held at 4 o'clock Sunday afternoon, under the auspices of the American Legion.

Funeral services were held Saturday for Mabel Eileen, two year old daughter of Mr. and Mrs. Roy Granden, of near Wren.

Commissioners of Allen-co went here Friday for a conference with the Van Wert-co board. August 1 was fixed as the date of hearing of was fixed as the date for hearing of joint county ditch.

BOOSE ALIMONY CASE TO RESUME MONDAY

Hearing of the alimony action which Mrs. Frances Robinson Boose instituted against her husband, Roy E. Boose, will be continued Monday in common pleas court.

The case was started Friday, but on account of slow progress made, could not be finished that day. Judge E. R. Eastman, Ottawa, announced he would return Monday for the completion of evidence.

It is probable both Boose and his wife will be recalled to the witness stand to testify.

FUNERAL SERVICES FOR LEONA KURTZ SUNDAY

Funeral services will be held Sunday at 10 o'clock at Salem church for Leona Grace Kurtz, 10-year-old daughter of Mr. and Mrs. Charles H. Kurtz, 104 W. High-st, who died Friday afternoon from heart trouble and pneumonia.

Interment will be in Salem cemetery. Besides parents, a brother and two sisters survive.

The Rev. Webster C. Spayde, pastor of Bethany Lutheran church will deliver the sermon and conduct services in the Lutheran church West Cairo, Sunday afternoon at 1 o'clock.

SURVEYOR'S JOB IS DEMANDED

Auglaize-co Official In Jangle With Highway Head

CAR SEIZED BY HERRICK

Contract Let For Lighting System—News of Wapak

WAPAKONETA. — (Special) — Because County Surveyor J. E. House refused to discharge highway inspector McNally of St. Marys, regular under civil service provisions, State Highway Commissioner Leon Herrick has demanded House's resignation. House refused to discharge McNally, a man named Hoewischer, designated by the highway department. McNally is a Democrat and Hoewischer a Republican.

House refuses to fire McNally and emphatically states that he will not resign, as he was elected by the people and has no reason for leaving his position at the behest of the state highway head.

As "punishment" for his refusal to comply with the terms of the order of the state highway department, Frank Woodward was sent from Columbus to demand of House that he turn over to the state a Ford automobile that has been used by the surveyor's department in making trips of inspection about the county. House states that when the car was received from the state it was in poor condition and that it was repaired at the expense of the county.

Fred Houtz, deposed night policeman, who asked for a new trial before the local civil service commission, after the case had been heard and the board is accredited with having ignored the evidence and voted to "sustain the safety director," has been notified by the two Republican members of the board that his request is denied.

Attorneys for the deposed officer were not notified of a meeting to hear the motion, it is stated. No opportunity was given to argue the request, they claim. Houtz' attorneys state that the case will be appealed.

Prosecuting Attorney Carl Timmermeister has been notified by State Attorney General Price that "suit clubs" are illegal. These clubs distribute suits to members through process of drawings or lotteries, the attorney general states and have been in operation in most localities in the state.

William Wright of near New Hampshire, was arraigned Friday before Justice of the Peace Guy Herrmann of Duchouquet township, on a charge of drunkenness and was fined \$5 and costs.

The board of control Friday awarded a contract to the Charles M. Kelo company of Dayton, electrical engineers, for the erection of the \$10,000 electric lighting system here, to use current to be purchased from the Western Ohio Railroad company power house at St. Marys. The contract was awarded at the bid offered, \$84,540.

Henry C. Wentz was awarded a contract for the tearing down of the old light plant and the erection of a new structure, at his bid of \$14,974. Ornamental light standards will be used. More than 40 standards will be erected. The system is to be ready by October 15.

Elsie Wildermuth has brought suit against Ray Wildermuth for divorce, alleging habitual drunkenness for more than three years. They were married at St. Marys and have two children.

Delno Snyder, near St. Johns, east of here, sustained a \$250 loss Friday, when his Essex car and the garage that housed it were burned. Crossed wires in the car are believed to have started the fire.

CONVICTED OF ASSAULT, ELIDA YOUTH IS TAKEN ON PATERNITY CHARGE

Omer Ross, 22, residing near Elida, was arraigned in Justice W. H. Guyton's court, Saturday, on an affidavit charging paternity, preferred by Margaret Lease, Elida. Ross was arrested at his home by Constable J. G. Zimmerman, who is serving in Justice Guyton's court in place of Charles A. Flock, who is absent from the city.

When Officer Zimmerman went to the Ross home to make the arrest, several of the young man's friends followed the constable and attempted to start trouble. They accompanied Constable Zimmerman and Ross to Lima. It was only upon being informed they stood liable to arrest that they dispersed.

They claimed Ross had been tried once on the charge and defied Officer Zimmerman to make the arrest, declaring he had no warrant for Ross. They visited Sheriff Charles W. Baxter, who told them it was not within his jurisdiction to interfere in the Ross matter.

Ross pleaded not guilty and was released on bond. Trial has been set for July 28 at 1 p. m.

Ross was convicted in court a week ago of assault with consent upon Margaret Lease, in which the State of Ohio was fixing the blame for her condition. The girl was not yet 16 years of age at the time the crime was committed.

Ross has not, however, been tried at any time on paternity charges.

JUSTICE WONDERS WHERE BOOZE COMES FROM, AS HE LEVIES COURT FINES

Justice W. H. Guyton's court in the Holmes-bk N. Main-st, presented the appearance of a busy metropolitan criminal court on Saturday. One case was no more than completed than another was started.

Tom Cunningham, 40, N. Main-st, was brought in by Constable Zimmerman, charged with becoming intoxicated by drinking certain liquors.

When arraigned, Cunningham pleaded he had been only drinking Jamaica ginger, but said he guessed it got the better of him. Justice Guyton fined him \$5 and costs.

Ethel Lentz, 25, colored, N. Jackson-st, was next arraigned. Ethel was suffering from the same trouble with which Cunningham was afflicted. She said too it was "ginger" that caused her trouble.

Justice Guyton took her word for it. He said \$5 and costs, with promise of a heavy sentence if she should appear before him again in a like condition.

"Peculiar, where all this intoxicating liquor comes from" the court remarked in passing sentence.

There is Strength in Every Tablet

One dose often helps commence to enrich your blood and revitalize your worn-out exhausted nerves—Nuxated Iron is organic, iron like, the iron in your blood and like the iron in spinach. It is so prepared that it will not irritate the teeth nor disturb the stomach. It is ready for almost immediate absorption and assimilation by the blood while some physicians claim metallic iron which people usually take is not absorbed at all. If you are not strong or well you owe it to yourself to make the following test: See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron—three times per day, after meals for two weeks. Then test your strength again and see how much you have gained. Your money will be refunded by the manufacturers if you do not obtain satisfactory results. At all druggists.—Adv.

Capitol Gossip of Political Con- ditions

Wage reductions are already under discussion among coal operators and the joint wage agreement with miners expires next April. For the first time in many, many years it seems that such a proposition will be put up to the miners. It may be accepted, but it is doubtful. It may be that if present hard times continue the miners will be forced to accept. Still, they will not be deceived by idleness because they know what unemployment means. There never has been a time in ten years when things were as hard for miners as right now. President Lee told the other day of a case where the miners had had only three

Then there is a lot of superfluous talk about these freight rates, they are a contributing cause to the high cost of highways. Freight rates are getting into the same class as the Bolsheviks. If anything is wrong, blame it on the freight rates, like they do on the Bolsheviks. Now, Mr. Herrick knows that freight rates, according to his own figures, are down 20 per cent. since 1914. If they were reduced 50 per cent it could not come to so much. It is true, the state is to get the benefit if any reduction in rates in the future, but the recoveries under this will be about as great as the recoveries under the bonds on suits brought by Attorney General John C. Nease. We all know how much that is. Just the same, People's Party has no objection to a moderate amount of blame being attached to the railroads who are standing with one

People who imagine that the Republican party is satisfied to follow its leaders should read the declaration of Aldermanic President LaGuardia who is about to become a candidate for the Republican nomination for mayor of Greater New York. The first thing this dashing politician did was to kick into the ribs of one Governor Miller of the Empire State. Governor Miller has the idea that he knows ever so much better than the people do what they need, so he enacted one of those laws that would have delighted the soul of Harry L. Davis. He just took over the control of the tractions of New York City without giving the people a vote on it. That's all he did. And now LaGuardia breaks forth with a demand that the city exercise its own power and calls on all party patriots to rally to his support against the up-state bosses who are laid impious hands on the city. People out here will watch the outcome to see if the majority of the people believes in LaGuardia or in Governor Miller. The result will tell them something.

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, which any drug store will supply you for a few cents. shake well, and you have a quarter pint of harmless and delicious lemon bleach. Massage this sweetly fragrant lotion into the face, neck and arms and hands twice each day, then shortly note the beauty and whiteness of your skin.

Famous stage beauties use this lemon lotion to bleach and bring that clear, rosy-white complexion, also as a freckle, sunburn, and tan bleach because it doesn't irritate.

THREE DIVORCES ARE GRANTED

Two Cases Taken Under Advice—men by Court.

ONE NEW SUIT IS FILED

Mismatched Couples Freed of Matrimonial Yoke.

It was divorce day in Judge F. C. Becker's court, Saturday. Five cases were submitted to the court and three divorces were granted. Two others were taken under advisement. One new divorce case was filed.

Mrs. Alice Vivian Powers was granted a divorce from Harlan Len Powers, on the grounds of extreme cruelty. Custody of their minor child, Evelyn Dorothy Powers, 2, was confined to the wife, who will be obliged to pay court costs.

Mrs. Bowers told the court her husband beat her and threatened to kill her. He left her with a woman named Margaret Sanders McGinnon on April 1 of this year. Bowers and his wife were married on June 10, 1915, by the Rev. M. R. Fuller, in Lima.

MRS. DIBERT GIVEN DECREE

Mrs. Cora A. Dibert was awarded a decree from Charles Dibert on the grounds of extreme cruelty. The household goods were given to the wife. Dibert was served on March 19, 1919, in Weston and have no children. Mrs. Dibert told the court her husband nagged her to the point where she became unbearable. Dibert is said to reside at 524 S. Main-st.

Divorce was granted Mrs. Emma Emerson from John Emerson on the grounds of neglect. Each party's interest was barred in property of the other. Emerson paid her court costs and was restored to her previous married name of Emma Richardson.

Mrs. Emerson told the court that her husband owns land in Spencer-tp and property in Spencer-ville and St. Marys. He refused to provide her the necessities of life, appearing cold and indifferent to her welfare.

The couple were married in Spencer-ville, September 11, 1918, and two months later, Mrs. Emerson says she suffered a nervous breakdown and that her husband refused her medicine and care. "He told me he would never live with me again and wanted me taken to my daughter's home to avoid care and expense of my sickness," Mrs. Emerson, a woman in middle life, testified. She declared her second marriage resulted most disastrously. Emerson is now said to be in St. Marys.

DECISIONS DEFERRED

Judge Becker took under advisement the case of Leland L. Good, wealthy Monroe-tp farmer, against his wife, Fredericka Good and that of Berge Hutchinson against Franklin W. Hutchinson.

Good told the court his wife did not like farm work and deserted him last December. The couple were married in Columbus Grove December 8, 1915, and have no children. Mrs. Good is now an employee of the general offices of the Ohio Electric railway company, Lima, where she was employed prior to her marriage.

Mrs. Hutchinson told the court her husband remained out nights and that while she suffered for want of fuel and necessities, he spent his money in ways unknown to her. The couple have not lived together since April, 1919, and their three children, 8, 6 and 4, are now in a children's home. Mrs. Hutchinson asks custody of the little ones. The couple were married in Ada in March, 1912.

Mrs. Clara Barr, in an action for divorce from her husband, J. Floyd Barr, charges that he forced her to live with his mother in Portsmouth and was so exacting she could not live in peace.

She tried it a year, she asserts, when her health broke down and she sought shelter in her mother's home in St. Marys upon the advice of a physician. The couple were married in St. Marys, May 2, 1919, and have no children. Barr is now said to be in Portsmouth.

CHARGE SHOOTING

Two Men Arrested As Result Of Alleged Quarrel.

Two men giving their names as Tom Zumbo, 31, 115 E. Vine-st., and Tony Zumbo, 23, 112 W. Vine-st., were arrested Saturday night by police on a charge of shooting with intent to kill.

A warrant covering the charge was sworn out by Angelo Brunetto, father of the wife of Tom Zumbo. He alleges that the two men shot at him and at his home Friday night. Brunetto lives on Lake-st.

Fearing further attack, Brunetto is said to have sworn out the warrant and asked that the men be arrested before Saturday night.

Police declare that the shooting affair is the outcome of a family quarrel. Brunetto, they say, has been trying to urge his daughter to return to him. The Zumbos are said to have objected.

LEGION MEMBERS ARE OFFERED FREE WEDDINGS

KANSAS CITY, Mo.—All members of the American Legion who attended the national convention here this fall will be married free by Rev. John W. Inzer, national chaplain, he announced in a letter to convention officials here today.

"Marriage is the best sort of thing that can happen to any ex-service man," said Inzer. "The chaplain's home is at Chattanooga."

RELATIVE DIES

Mr. and Mrs. M. J. Callahan, Mrs. Helena Callahan and Mrs. Andrew Callahan were summoned to Ott City, Pa., Saturday, account the death of Mrs. John O'Shea, a sister of Mr. Callahan. Mrs. O'Shea was also a sister of the late Andrew Callahan.

COMPLICATION FATAL TO MRS. ALBERDING

Mrs. Catherine Alberding, 50, wife of Henry Alberding, 728 E. Second-st., died Saturday at her home, after an illness of a year from a complication of diseases. She was born in Anglatzco April 6, 1871.

Surviving, besides the husband, are her father, William Mertz, Lima, four sisters and four brothers. Sisters are: Mrs. A. C. McColl and Mrs. J. A. Wachland, both of Los Angeles; Mrs. William Dixon, 1304-1-2 W. High-st. and Mrs. Edward Sheridan, 123 E. Vine-st.

Funeral services will be held Monday at 2 p. m. at the residence. The Rev. T. W. Hoernemann, pastor of the First Reformed church, will officiate. Interment will be in Woodlawn.

PERU TO OBSERVE FREEDOM DATE

100th Anniversary Of Independence In July

LIMA.—(By Associated Press)—Lima, the one-time bulwark of Spanish power and domination in the Southern continent, today stands on the threshold of the 100th anniversary of its independence.

During the week of July 24 to 31 the land where once the Incas ruled will celebrate the centenary of its freedom from Spain. Virtually all the leading nations of the world and a great many of the smaller ones were invited to help Peru commemorate the event and the majority of them accepted. The United States sent two battleships carrying a commission.

MANY EXHIBITIONS.—There will be exhibitions of domestic and foreign manufactures, diplomatic receptions and ceremonies, including the unveiling of an equestrian statue of José de San Martín, the Argentine general, who played a leading part in the liberation not only of Peru but of other South American countries.

It was on the 28th of July, 1821, that General San Martín, father of his native country and of Chile, declared the independence of Peru from Spanish rule and sovereignty. Since the beginning of the Nineteenth Century, the ideas of liberty grown out of the American Revolution had resulted in the independence of Venezuela, Argentina and Chile from the Spanish rule, and in unsuccessful movements in Peru. The former countries obtained their independence, but Peru remained subject to Spanish domination.

EIGHT FOR FREEDOM

Knowing that their liberty was endangered as long as this situation prevailed, the Southern countries of South America decided to help the Peruvian struggle to obtain their independence. An expedition of 4,000 to 5,000 soldiers was organized in August, 1820, by General José de San Martín on the coast of Chile.

Transported by a fleet commanded by Lord Cochrane, hero of the Chilean independence, it landed near Pisco, Peru, 100 miles south of Lima, the capital, in September, 1820. Greeted by the Peruvian people as liberators, they found no propitious field and after several military operations, San Martín and his army entered Lima and proclaimed the country's independence.

PLAN BOYS' CAMP

50 Or More To Go To Clear Lake, Ind., July 31.

At least 50 boys will leave for the Y. M. C. A. Camp at Clear Lake, Indiana, July 31. E. A. Leeson, Boys' Work secretary and I. G. Maxwell, physical director, will be in charge of the camp.

Supplies for the camp will be shipped thru by truck the latter part of the week. Trucks loaned by the Gramm-Bernstein and the Garford will be used. After the ten day camp is over, the equipment will be stored on property belonging to T. P. Riddle and used next year.

Transportation of the boys to and from the camp is in charge of the local club. The club is very much interested in the camp for the boys and is doing everything in its power to make it a success.

While at the camp the boys will be trained in the various phases of camp life, as well as the usual athletic events.

Overnight hikes and camp life on the T. R. Hamilton from continue to attract a large amount of interest among the boys who cannot go away for a greater length of time. There were 55 boys on the hike that started Friday afternoon and ended Saturday noon.

OHIO'S MALE INCREASE OUTSTRIPS THE FEMALES

WASHINGTON.—Ohio had 2,655,945 males and 2,893,414 females when the 1920 census was taken, the census bureau announced today. During the ten years census period, the population increased 20.8 per cent, while the male population increased 21.4 per cent and female 20.2 per cent. Ratio of males to females last year was 105.4 to 100.

Ohio has 5,571,892 whites, 186,187 negroes, 151 Indians, 9,449 Cherokees, 120 Japanese and 92 of all other races.

The foreign born population totaled 678,697 in 1920 against 597,245 in 1910. This element totaled 11.86 per cent of the population last year against 12.5 ten years ago.

RAIL AND FARM AID PLANNED

Scheme Evolved To Furnish Credit Assistance.

CASH OUTLAY SIDESTEPED

U. S. Would Act As Broker For Agriculturists.

WASHINGTON.—Billions of dollars of credit for the farmers and railroads of the country are involved in a so-called "administration plan" for relieving both agriculture and transportation from their present difficulties, presented to many members of the Senate Saturday.

The plan is to give the war finance corporation bond powers and a large sum of money to—

1.—Finance export and domestic sales of accumulated roadstuffs, cotton and livestock and all agriculture products.

2.—Enable the railroads to get back on their feet by providing credit, and also by funding their debt to the government on easy terms.

By including the railroads in the credit plan, it was stated the administration hopes to avoid the necessity for a huge direct appropriation at this time of \$500,000,000 or more, to pay the transportation lines sums claimed by them as the result of federal control during the war.

This, it was pointed out to senators, would greatly relieve the public apprehension caused by expectation of this half billion payment to the railroads, the request for \$300,000,000 for the shipping board, and Senator Penrose's pessimistic views, that it would not be possible to effect much reduction in taxes.

Eugene Meyer, Jr., director of the war finance corporation, spent most of the day at the capital laying the plan before senators. Meyer's suggestions included one that the Norris bill now pending before the Senate be amended to meet the proposals he outlined. Norris' bill, as it stands, creates a corporation like the war finance corporation, empowered to use \$1,000,000,000 of the government's cash and credit to buy agricultural products and sell them and to help farmers finance deals in export markets.

MYSTERY TRIP OF CASHIER ENDS

Marshfield Banker, Missing Several Days, Returns Home.

NEW MARSHFIELD, Ohio.—William Sturgill, cashier of the New Marshfield bank, appeared at his home Saturday as mysteriously as he left it.

Sturgill has been missing since Tuesday. Mrs. Dei Pha Sturgill, his wife, refused to let Sturgill be interviewed. She said he was sleeping.

Members of the family were unable to state when the missing cashier returned home. Neither do they know where he has been. When the family awakened yesterday morning the man was in his bed.

State officials yesterday took over the management of the bank. The safe which had remained locked because Sturgill was the only one who knew the combination, was opened last night by a safe expert from Marietta. Examiners are working on the books today.

RETIRED FARMER IS SUMMONED IN DEATH

Fred Hoyerman, 57, retired farmer, died at his home, 177 N. Shawnee-st., Saturday. Death followed an illness of a year from Bright's disease and dropsy.

Hoyerman is survived by his second wife and two brothers who reside in Ohio City. Funeral services will be held Sunday afternoon at one o'clock at the residence. The Rev. Paul W. Irony, pastor of St. Paul's Lutheran church, will officiate. Interment will be at Ohio City.

OFFICER EXPECTS TO RETURN CARBONES HERE

Rosa Carbone and his wife, Rosa, 136 E. Fourth-st., alleged black-handers, are to be returned to Lima. County Detective Roy E. Bowersock left Lima Saturday for a stay over Sunday. Before leaving he announced upon his return, he would bring back with him Carbone and his wife, who are said to have been on a visit in Toledo and Akron.

Carbone is under indictment by the January grand jury for blackmail. His wife was convicted of blackmail, but has not yet been sentenced, pending appeal of her case to higher court.

It is said the Carbones have sold their household goods and had left the city, altho under bond. Sheriff Easter Saturday denied that he had been ordered by the prosecutor or the court to place Carbone or his wife under arrest or produce them in court.

SANITATION URGED IN SCHOOLS

Should Be As Wholesome As Home Health Rules.

A country school should be as sanitary and wholesome in all essential particulars as the best home in the community, according to a letter addressed by Dr. J. J. Sutter, county health officer, to the various boards of education in the county.

Under provisions of the new health law, the county commissioner of health is required to investigate sanitary conditions of the school plants and boards of education are required to remedy any faults found. This letter was the result of an investigation of the schools of the county.

Recommendations made include the following:

All school buildings should be kept in good repair, painted and absolutely free from defacing marks. The school grounds should be well drained and the walks kept dry and clean. Furniture should be sanitary and easily cleaned. Floors should be oiled and scrubbed at least twice a year.

Pure, fresh water should be provided by a sanitary drinking fountain, available to every pupil at any time of day that does not interfere with the school program. There should be facilities for washing the hands and individual towels should be provided.

Other features that are becoming necessities in practically every school are scales for the weighing of the children and determining those who are under weight. A Snellen chart for the use of the teacher to test the eyes of the children, a thermometer to aid in the regulation of the warmth of the room and adjustable blinds on the windows for the proper control of the light entering the room.

"Much better work will be obtained if the teachers and scholars are given comfortable and sanitary working conditions," said Dr. Sutter. "No school board will purposely neglect the welfare and best interests of the public schools, but often their attention must be called to the various needs. That is the purpose of the letter."

Take Place of Babson at Cornerstone Laying.

NEW COURTHOUSE CEREMONY

Lima Contractors Erect Mercer-co Structure.

CELINA.—(Special).—Elaborate plans for the laying of the cornerstone of the new Mercer-co courthouse, under course of construction here, will be carried out at 8 o'clock Wednesday afternoon, despite the fact that at the last minute it was necessary to make changes in the program of the day.

The Grand Lodge of Ohio, F. & A. M. (Masonry) will not have charge of the ceremonies, as heretofore announced, neither will the Honor Roger W. Babson of Boston, eminent authority on business and finance, be able to be present and deliver an address.

Hon. J. Ralph Pickell, Chicago, expert on matters of business and local, state and national government, will deliver an address. An effort was made Saturday to secure United States Senator F. B. Willis as a speaker in place of Babson, but there was no assurance that he can be here.

The ceremony of laying the cornerstone will be in charge of William T. Palmer, president of the Celina Business Men's association. In addition to copies of county newspapers, names of county officials, building commission, contractors and architects, coins, plans and specifications of the new structure, which will be placed in the cavity in the cornerstone, the cornerstone of the present structure will be opened Monday and the contents placed in the new structure.

The old courthouse was erected in 1863. The structure will not be razed until the new courthouse is ready, hence the cornerstone must be chiseled into.

DEATH CLAIMS NATIVE OF IRELAND, RESIDENT HERE FOR 60 YEARS

Timothy Gorman, 75, of 569 N. McDonel-st., died Saturday, after an illness of a year and a half, from a complication of diseases. He was born in Ireland, but for 60 years had resided in Lima. Until his health failed, he was employed as a blacksmith at the Baltimore & Ohio railroad shops. Gorman was a member of St. Rose Catholic church. His wife died a year ago last March. Surviving are three sons and two daughters. Michael Gorman, 1033 Greenlawn-ave.; James Gorman, 715 Greenlawn-ave and Thomas Gorman, Detroit, sons; the Misses Anna and Bee Gorman, daughters, residing at the parental home.

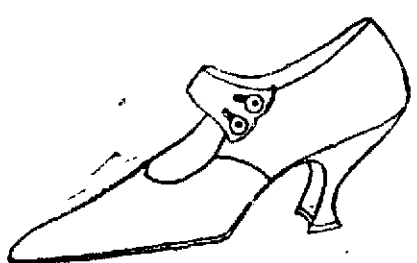

Funeral services will be held Tuesday morning at 8:30 o'clock at St. Rose Catholic church. Interment will be at Gethsemani.

The couple were married on March 10, 1909, in Weston and have six children. Mrs. Dibert told the court her husband nagged her to the point where she became unbearable. Dibert is said to reside at 574 S. Main-st.

Divorce was granted Mrs. Emma Emerson from John Emerson on the grounds of neglect. Each party's interest was barred in property. The other, Mrs. Emerson, paid her own court costs and was restored to her previous married name of Emma Richardson.

Mrs. Emerson told the court that although her husband owns land in Spencer-tp and property in Spencer-ville and St. Marys, he refused to provide her the necessities of life, appearing cold and indifferent to her welfare.

The couple were married in Spencer-ville, September 11, 1918, and two months later Mrs. Emerson says she suffered a nervous breakdown and that her husband refused her medical care. "He told me he would never live with me again and wanted me taken to my daughter's home to avoid care and expense of my sickness," Mrs. Emerson, a woman in middle life, testified. She declared her second marriage resulted most disastrously. Emerson is now said to be in St. Marys.

DECISIONS DEFERRED
Judge Becker took under advisement the case of Leland L. Good, wealthy Monroe-tp farmer, against his wife, Fredericka Good and that of Bertie Hutchinson against Franklin W. Hutchinson.

Good told the court his wife did not like farm work and deserted him last December. The couple were married in Columbus Grove December 8, 1915, and have no children. Mrs. Good is now an employee of the general offices of the Ohio Electric railway company, Lima, where she was employed prior to her marriage.

Mrs. Hutchinson told the court her husband remained out nights and that while she suffered for want of fuel and necessities, he spent his money in ways unknown to her. The couple have not lived together since April, 1919, and their three children, 8, 6 and 4, are now in a children's home. Mrs. Hutchinson asks custody of the little ones. The couple were married in Ada in March, 1912.

Mrs. Clara Barr, in an action for divorce from her husband, J. Floyd Barr, charges that he forced her to live with his mother in Portsmouth and was so exacting she could not live in peace.

She tried it a year, she asserts, when her health broke down and she sought shelter in her mother's home in St. Marys upon the advice of a physician. The couple were married in St. Marys, May 3, 1919, and have no children. Barr is now said to be in Portsmouth.

CHARGE SHOOTING

Two Men Arrested As Result Of Alleged Quarrel.

Two men giving their names as Tony Zumbo, 31, 115 E. Vine-st, and Tony Zumbo, 23, 112 W. Vine-st, were arrested Saturday night by police on a charge of shooting with intent to kill.

A warrant covering the charge was sworn out by Angelo Brunetto, father of the wife of Tony Zumbo. He alleges that the two men shot at him and at his home Friday night. Brunetto lives on Lake-st.

Fearing further attacks, Brunetto is said to have sworn out the warrant and asked that the men be arrested before Saturday night.

Police declare that the shooting affray is the outgrowth of a family quarrel. Brunetto, they say, has been trying to urge his daughter to return to him. The Zumbos are said to have objected.

LEGION MEMBERS ARE OFFERED FREE WEDDINGS

KANSAS CITY, Mo.—All members of the American Legion who attend the national convention here this fall will be married free by Rev. John W. Inzer, national chaplain, he announced in a letter to convention officials here today.

"Marriage is the best sort of thing that can happen to any ex-service man," said Inzer. The chaplain's home is at Chattanooga.

Mr. and Mrs. M. J. Callahan, Miss Helene Callahan and Mrs. Andrew Callahan were summoned to Oil City, Pa., Saturday, account the death of Mrs. John O'Shea, a sister of Mr. Callahan. Mrs. O'Shea was also a sister of the late Andrew Callahan.

COMPLICATION FATAL TO MRS. ALBERDING

Mrs. Catherine Alberding, 50, wife of Henry Alberding, 723 E. Second-st, died Saturday at her home, after an illness of a year from a complication of diseases. She was born in Auglaize-co April 6, 1871.

Surviving, besides the husband, are her father, William Mertz, Lima, four sisters and four brothers. Sisters are Mrs. A. C. McCall and Mrs. J. A. Wahlgren, both of Los Angeles, Mrs. William Dixon, 130 1-2 W. High-st and Mrs. Edward Sheridan, 133 E. Vine-st.

Funeral services will be held Monday at 2 p. m. at the residence. The Rev. T. W. Hoernemann, pastor of the First Reformed church, will officiate. Interment will be in Woodlawn.

PERU TO OBSERVE FREEDOM DATE

100th Anniversary Of Independence In July

LIMA.—(By Associated Press)—Lima, the one-time bulwark of Spanish power and domination in the Southern continent, today stands on the threshold of the 100th anniversary of its independence.

During the week of July 24 to 31 the land where once the Incas ruled will celebrate the centenary of its freedom from Spain. Virtually all the leading nations of the world and a great many of the smaller ones are invited to help Peru commemorate the event and the majority of them accepted. The United States sent two battleships carrying a commission.

MANY EXHIBITIONS
There will be exhibitions of domestic and foreign manufactures, diplomatic receptions and ceremonies, including the unveiling of an equestrian statue of Jose de San Martin, the Argentine General, who played a leading part in the liberation not only of Peru but of other South American countries.

It was on the 28th of July, 1821, that General San Martin, father of his native country and of Chile, declared the independence of Peru from Spanish rule and sovereignty. Since the beginning of the Nineteenth Century, the ideas of liberty grown out of the American Revolution had resulted in the independence of Venezuela, Argentina and Chile from the Spanish rule, and in unsuccessful movements in Peru. The former countries obtained their independence, but Peru remained subject to Spanish domination.

PERU FOR PERUVIANS
Knowing that their liberty was endangered as long as this situation prevailed, the Southern countries of South America decided to help the Peruvian patriots to obtain theirs, and an expedition of 4,000 to 5,000 soldiers was organized in August, 1820, by General Jose de San Martin on the coast of Chile.

Transported by a fleet commanded by Lord Cochrane, hero of the Chilean independence, it landed near Pisco, Peru, 100 miles south of Lima, the capital, in September, 1820. Greeted by the Peruvian people as liberators, they found the province in a state of anarchy, with military operations, San Martin and his army entered Lima and proclaimed the country's independence.

PLAN BOYS' CAMP
At least 50 boys will leave for the V. M. C. A. Camp at Clear Lake, Indiana, July 31. E. A. Leeson, Boys' Work secretary and J. G. Maxwell, physical director, will be in charge of the camp.

Supplies for the camp will be shipped thru by truck the latter part of the week. Trucks loaned by the Grambs-Stein and the Garford camp is over, the equipment will be stored on property belonging to J. P. Riddle and used next year.

Transportation of the boys to and from the camp is in charge of the Lions Club. The club is very much interested in the camp for the boys and is doing everything in its power to make it a success.

While at the camp the boys will be trained in the various phases of camp life, as well as the usual athletic events.

Overnight hikes and camp life on the T. R. Hamilton from continue to attract a large amount of interest among the boys who cannot go away for a greater length of time. There were 35 boys on the hike that started Friday afternoon and ended Saturday noon.

OHIO'S MALE INCREASE OUTSTRIPS THE FEMALES
WASHINGTON—Ohio had 2,985,980 males and 2,507,114 females when the 1920 census was taken. The census bureau announced today. During the ten years census period, the population increased 20.8 percent, while the male population increased 21.1 percent and female 20.2 percent. Ratio of males to females last year was 105.4 to 100.

Ohio has 5,571,892 whites, 186,187 negroes, 151 Indians, 9,443 Chinese, 130 Japanese and 92 of all other races.

The foreign born population totalled 678,697 in 1920 against 597,245 in 1910. This element totalled 11.86 per cent of the population last year against 12.5 ten years ago.

RAIL AND FARM AID PLANNED

Scheme Evolved To Furnish Credit Assistance.

CASH OUTLAY SIDESTEPED

U. S. Would Act As Broker For Agriculturists.

WASHINGTON—Billions of dollars of credit for the farmers and railroads of the country are involved in a so-called "administration plan" for relieving both agriculture and transportation from their present difficulties, presented to many members of the Senate Saturday.

The plan is to give the war finance corporation broad powers and a large sum of money to—

1—Finance export and domestic sales of accumulated food-stuffs, cotton and livestock and all agriculture products.

2—Enable the railroads to get back on their feet by providing credit, and also by funding their debt to the government on easy terms.

By including the railroads in the credit plan, it was stated the administration hopes to avoid the necessity for a huge direct appropriation at this time of \$500,000,000 or more, to pay the transportation lines sums claimed by them as the result of federal control during the war.

This, it was pointed out to senators, would greatly relieve the public apprehension caused by expectation of this half billion payment to the railroads, the request for \$300,000,000 for the shipping board, and Senator Penrose's pessimistic views, that it would not be possible to effect much reduction in taxes.

Eugene Meyer, Jr., director of the war finance corporation, spent most of the day at the capitol laying the plan before senators. Meyer's suggestions included one that the Norris bill now pending before the Senate be amended to meet the proposals he outlined. Norris' bill, as it stands, creates a corporation like the war finance corporation, empowered to use \$1,000,000,000 of the government's cash and credit to buy agricultural products and sell them, and to help farmers finance deals in export markets.

MYSTERY TRIP OF CASHIER ENDS

Marshfield Banker, Missing Several Days, Returns Home.

NEW MARSHFIELD, Ohio—William Sturgill, cashier of the New Marshfield bank, appeared at his home Saturday as mysteriously as he left it.

Sturgill has been missing since Tuesday. Mrs. Delpha Sturgill, his wife, refused to let Sturgill be interviewed. She said, he was sleeping.

Members of the family were unable to state when the missing cashier returned home. Neither do they know where he has been. When the family awakened yesterday morning the man was in his bed.

State officials yesterday took over the management of the bank. The safe which had remained locked because Sturgill was the only one who knew the combination, was opened last night by a safe expert from Marietta. Examiners are working on the books today.

RETIRED FARMER IS SUMMONED IN DEATH

OFFICER EXPECTS TO RETURN CARBONES HERE

Ross Carbone and his wife, Rosa, 136 E. Fourth-st, alleged black-handlers, are to be returned to Lima. County Detective Roy E. Bowersock left Lima Saturday for a stay over Sunday. Before leaving he announced upon his return, he would bring back with him Carbone and his wife, who are said to have been on a visit in Toledo and Akron.

Carbone is under indictment by the January grand jury for blackmail. His wife was convicted of blackmail, but has not yet been sentenced, pending appeal of her case to higher court.

It is said the Carbones have sold their household goods and had left the city, also under bond. Sheriff Baxter Saturday denied that he had been ordered by the prosecutor or the court to place Carbone or his wife under arrest or produce them in court.

SANITATION URGED IN SCHOOLS

Should Be As Wholesome As Home Health Rules.

A country school should be as sanitary and wholesome in all essential particulars as the best home in the community, according to a letter addressed by Dr. J. J. Sutter, county health officer, to the various boards of education in the county.

Under provisions of the new health law, the county commissioner of health is required to investigate sanitary conditions of the school plants and boards of education are required to remedy any faults found. This letter was the result of an investigation of the schools of the county.

Recommendations made include the following:
All school buildings should be kept in good repair, painted and absolutely free from defacing marks. The school grounds should be well drained and the walks kept dry and clean. Furniture should be sanitary and easily cleaned. Floors should be oiled and scrubbed at least twice a year.

Pure, fresh water should be provided by a sanitary drinking fountain, available to every pupil at any time of day that does not interfere with the school program. There should be facilities for washing the hands and individual towels should be provided.

Other features that are becoming necessities in practically every school are scales for the weighing of the children and determining those who are under weight, a Snellen chart for the use of the teacher to test the eyes of the children, a thermometer to aid in the regulation of the warmth of the room and adjustable blinds on the windows for the proper control of the light entering the room.

"Much better work will be obtained if the teachers and scholars are given comfortable and sanitary working conditions," said Dr. Sutter. "No school board will purposely neglect the welfare and best interests of the public schools, but often their attention must be called to the various needs. That is the purpose of the letter."

WILLIS MAY SPEAK AT CELINA

Take Place of Babson at Cornerstone Laying.

NEW COURTHOUSE CEREMONY

Lima Contractors Erect Mercer-co Structure.

CELINA.—(Special)—Elaborate plans for the laying of the cornerstone of the new Mercer-co courthouse, under course of construction here, will be carried out at 8 o'clock Wednesday afternoon, despite the fact that at the last minute it was necessary to make changes in the program of the day.

The Grand Lodge of Ohio, F. & A. M. (Masonic) will not have charge of the ceremonies, as heretofore announced, neither will the Honor Roger W. Babson of Boston, eminent authority on business and finance, be able to be present and deliver an address.

Hon. J. Ralph Pickell, Chicago, expert on matters of business and local, state and national government, will deliver an address. An effort was made Saturday to secure United States Senator F. B. Willis as a speaker in place of Babson, but there was no assurance that he can be here.

The ceremony of laying the cornerstone will be in charge of William T. Palmer, president of the Celina Business Men's association. In addition to copies of county newspapers, names of county officials, building commission, contractors and architects, coins, plans and specifications of the new structure, which will be placed in the cavity in the cornerstone, the cornerstone of the present structure will be opened Monday and the contents placed in the new structure.

The old courthouse was erected in 1855. The structure will not be razed until the new courthouse is ready, hence the cornerstone must be chiseled into.

Ora M. Green & Co., of Lima has the general contract. Other Lima

firms engaged on the construction of the new courthouse are: Williams Bros., heating and plumbing and the Wentworth-Dean Co., electrical installation.

DEATH CLAIMS NATIVE OF IRELAND, RESIDENT HERE FOR 60 YEARS
Timothy Gorman, 75, of 569 N. McDonel-st, died Saturday, after an illness of a year and a half, from a complication of diseases. He was born in Ireland, but for 60 years had resided in Lima. Until his health failed he was employed as a blacksmith at the Baltimore & Ohio railroad shops. Gorman was a member of St. Rose Catholic church. His wife died a year ago last March. Surviving are three sons and two

daughters, Michael Gorman, 1059 Greenlawn-ave; James Gorman, 715 Greenlawn-ave and Thomas Gorman, Detroit, sons; the Misses Anna and Bee Gorman, daughters, residing at the parental home.

Funeral services will be held Tuesday morning at 8:30 o'clock at St. Rose Catholic church. Interment will be at Gethsemani.

TRIS SPEAKER DECLARES HE WILL NEVER MANAGE A BALL TEAM FROM THE DUGOUT

Answering a question put
to him recently, Manager Tris
Speaker, of the Cleveland
Americans, said:

"I will never be a bench
manager."

Speaker is not tired of the
game of baseball as a sport,
but he said he will not sit on
a bench as manager and
watch others play when he

cannot participate.

That, however, is not the
main reason. This is anxious
to get into business, realizing
that if he is to make a success
in the business world he must
get started before long.

Following the winning by
the Indians of the world's
baseball championship last
fall, James C. Dunn, owner of

the Cleveland American team
and president of the Dunn-
McCarthy Construction Com-
pany, made Speaker a stock-
holder in the construction
company with a promise that
Speaker would be given an
active part in the business
when he retired from base-
ball.

Speaker wanted to quit the

game last fall but Dunn asked
him to stay and try for another
championship for the In-
dians, and, feeling that Dunn
was entitled to that consid-
eration, Speaker agreed to re-
tain the management of the
team.

While Speaker is not tired
of baseball as sport and tho
he would like to continue

playing for many years, the
strain of 15 years of profes-
sional baseball is beginning
to become wearisome.

"I wanted to quit baseball
last fall," Speaker said. "I
wish I could play for years,
for I love the game, but the
time is near when I must en-
ter some other field of en-
deavor where the demands of

the body are not so severe."

Speaker was asked if he
meant to retire at the end of
this season, but refused to an-
swer.

"I don't know what I will
do after this season," he said.
"I may be playing next year
and I may not. I have not
given the matter any thought.
At least, I can say that I have
not decided to quit."

City League Season Comes To Close This Week

By JIM BURBA

This time next week, and everything but the shouting may be over. Then again, the real interesting part of the Business Club league season may just be ready to start. It all depends upon the outcome of the Lions-Elks game Tuesday afternoon. If the Elks are able to stop the Lions in their upward march, then all Rotary will do is claim the bunting, and none of the three remaining teams can contest it. However, if the Lions, on the other hand, annex their seventh consecutive victory, then they will give battle with the Rotarians to determine just who is the rightful proprietor of the league honors. At all events we will know all about it by Tuesday afternoon, unless perchance the weather man hops in and takes a hand in the game. The final game of the weeks and season, is a postponed contest between the Kiwanians and the Elks.

MULLEN AND NEWTON ANXIOUS FOR SCRAP IN SQUARED RING

Hope Mullen, Muncie
bear cat, to the left.
Johnny Newton, below.

The two boys have been booked
by the Manhattan sporting club of
this city to go ten rounds Friday
night at the Murphy-st. ball park.
Unusual rivalry between the two
scrappers promises some interesting
action.

With the Hope Mullen-Johnny
Newton battle but six days off, the
battlers are getting on edge, really
anxious to tear into each other. It's
a matter of settling a long disputed
point between the two, and they're
inclined to hold that the man who
wins in Lima is the better of the
two.

Reid McCaul, matchmaker for the
Manhattan sporting club has an-
nounced that both boys are ex-
pected to complete their workouts be-
fore going into the ring. Arrange-

Industrial Track Meet Heads To
Hold Meeting Monday Night

By Joe Bernstein

Report of the committee on special
rules for the second Industrial Field
and Track meet to be held in Lima
Labor Day is scheduled to be made
Monday night when the Lima Indus-
trial Athletic Association meets at
the Y. M. C. A.

The special rules will deal with
the eligibility of men for competition,
in an effort to overcome the situation
presented by unmet business con-
ditions.

A large turnout of factory repre-
sentatives at this meeting is expected
because of its vital significance so
far as the meet itself is concerned.

The committee on individual
awards for place winners is also ex-
pected to make a report at this time.

At an attempt is being made to con-
tinue the precedent set last year in
giving to each winner of a first, sec-
ond and third place, a medal for the
honor they achieved. Last year the
medals were donated to the associa-
tion by H. H. Starrett, sporting goods
man.

Officials will also be discussed at
the Monday night meeting. Athle-
tic records for the meet will be
nothing definite as yet has been done
along this line, it is highly possible
the Judge Emmett Jackson of the
Lima criminal court will again be
asked to preside over the activities
of the day. His work last year in
keeping the meet moving in rapid
time and settling matters of technical
importance was highly commended
upon by promoters of the meet.

Tilden Beaten
By Youngster

PROVIDENCE—Vincent Richards,
Fordham youngster and the National
Junior champion, pulled a great sur-
prise here today when he beat Wm.
T. Tilden, the World's champion, and
won the Rhode Island state tennis
championship.

He beat the champion in a four
set match at 6-2, 6-1, 2-6, and 6-0.
Tilden, who has been off form
since his return from winning the
French national title, was clearly
outplayed in every set but the third
where Richards appeared to be rest-
ing.

The youngster played a smashing
game throughout and fairly knocked the
champion off his feet in the final
set.

Annual Net Tourney

ST. LOUIS—A movement for an
annual national tennis tournament
for members of the American Leg-
ion has been started here.

Sentiment favoring the proposal
developed following the St. Louis
legion tournament recently.
This was believed by the St. Louis
to be the first of its kind.
It was sanctioned by the United

St. Marys Team Should Stage Good Game Against Locals

There is every reason in the world to believe that local fans
will be treated to an honest-to-goodness game of the national
pastime here Sunday afternoon when the St. Marys team of ball
tossers run afoul the Hailorran gang. It's an admitted fact that
the local team can, and does, play a sweet brand of baseball. In
fact, they have been traveling so fast this season that it has been
extremely difficult for Manager Hailorran to procure teams of a
like calibre. However, if the record, and a bonafide one, too, can
be taken for anything, then the St. Marys gang will, at least,

make it interesting for the Independ-
ents as well as for the fans.

The St. Marys aggregation, under
the leadership of Jack Helmetetter,
has met and defeated some of the
fastest playing aggregations in this
neck of the woods. In the majority
of cases the opposing teams have not
been able to hit the proverbial can-
dle to the Augustine-co. lads. When
you learn that in fourteen games,
they have won twelve, you may use
your own judgment as to whether
or not it is a real ball tossing ma-
chine.

NOELL GOING GOOD
The main stay of the team as
Noell, the hurler. This youngster
hails from Fort Wayne, and has been
setting the mounds on fire this sea-
son. He has hurled, so Helmetetter
avers, a brace of no-run, no-hit
games this year and the majority of
contests have been of the three hit
variety. Helmetetter assured Hailor-
ran that Noell will be on the
mound for St. Marys against the In-
dependents here this afternoon.

The receiving end of the battery is
a youngster by the name of Iman.
He also hails from the Indiana city.
Helmetetter declares this Iman is
as sweet a catcher as there is out-
side organized baseball, and that he
will stack Iman up against any-
thing seen around these dignified In-
dians, according to report, is being
watched by Connie Mack, and is
 slated for a trial with the Atlantes
when they go south on their train-
ing trip in the spring. It will be in-
teresting to watch how his work
compares with that of Ruden, local
releaser.

CLARK MAY PLAY
The line-up of the Independents
will be shaken around some, Hailor-
ran said Saturday. Efforts are being
made to procure Harry Clarke, for-
mer American Association star, from
Paulding. If Clarke can be obtain-
ed, he will be placed on the dozy
corner. This will let Jack Mallow go
back to the short field. In event
Clarke's services are not available, it
is not impossible that Bible, Schroen-
er, Pollock or Murphy, local in-
fielders, will be given a chance for
a berth on the Independent's squad.

The Spencerville team, which is
operated by the business men's
association in that town shows
stacks of figures in the way of box
scores. The management of that ac-
tivated declares it is worthy of
consideration in the Lima team.
Spencerville is also making for
games here. Hailorran suggested that these
two teams play the opening part of
a double bill here this afternoon, and
if the winners displayed any real
ability, he would match them with
the Independents. Neither team
would agree to this. Hailorran rat-
her likes the looks of the Spencer-
ville crowd, and seriously considering
whether they had a chance to display
their wares in action against the local
team.

More than 100 fans are scheduled
to accompany the St. Marys team
here this afternoon, according to a
communication from Helmetetter.

The game will be called prompt-
ly at 7 o'clock. Butch Lawlor is
 slated to work behind the bats, while
Sunderland, of St. Marys, will prob-
ably call the plays on the paths.

England figured strong only in
the while event. Stollard and Ta-
chem two of the relay teams that
broke the world record at the
Lima trials in 1919 finished first
and second. Dennis O'Connell, for-
mer Captain of the Harvard team,
was figured for second place, but he
was accidentally kicked at the half
mile and retired.

Rudd, in winning the other event
for the British, ran true to his form
and took the quarter mile with
Chapman of Yale, second.

The summary:
100 yard dash: Won by Gourdin, Har-
vard, second, Abrahams, Cambridge.
Time 16 1/2 seconds.
200 yard dash: Won by Brown.
Harvard second, Jokers, Oxford. Dis-
tance 16 feet 3 1/2 inches.
100 yard run: Won by Rudd, Oxford.
Second, Chapman, Yale. Time 49 sec-
onds.
One mile run: Won by Stollard, Cam-
bridge, second, Tatham, Cambridge.
Time 4 minutes 26 2/5 seconds.
High jump: Won by London, Yale.
Second, Krogness, Harvard. Height 5
feet 5 inches.
120 yard high hurdle: Won by Kro-
gness, Harvard, second, Jordan, Yale.
Distance 42 feet 5 inches.
14 pound shot put: Won by Tolbert,
Harvard, second, Jordan, Yale. Dis-
tance 42 feet 5 inches.
Two mile run: Won by Douglas, Yale.
Second, Seagrave, Cambridge. Time, 5
minutes 22 1/2 seconds.
800 yard run: Won by Campbell,
Yale, second, Rudd, Oxford. Time 1
minute 42 seconds.
Broad jump: Won by Gourdin, Har-
vard, second, Abrahams, Cambridge.
Distance 25 feet 3 inches.

Will Hold Twelve
Round Bouts Now

ST. LOUIS—Boxing will be re-
sumed here under the direct super-
vising of the police department,
and bouts will be allowed to go 12
instead of eight rounds.

A boxing committee has been ap-
pointed by the board of police com-
missioners. It announces no farce
matches will be permitted. Under
rules adopted names of the princi-
pals must be supplied the commis-
sioners two weeks in advance of a
bout. Referees and physicians will
be appointed by the commission, and
if boxers are not in perfect physical
condition they will not be allowed
to perform.

Five per cent of the receipts will
be donated to public recreation
grounds in the congested district.

HERE'S RECORD

CINCINNATI, O.—The Wortmoe
Rogers, an amateur baseball team of
this city, established what is be-
lieved to be a record in a recent
game, when the first three of their
batters up made home runs off the
first ball pitched to them. Despite
this valiant hitting the other team
won the game 8 to 7.

Grand Circuit Meet
Opens At Columbus

COLUMBUS, O.—All of the lead-
ing race drivers in the country and
all of the speediest horses now in
training will go for \$41,000 in
stakes and purses hung up for the
Mid-Summer Grand Circuit meet-
ings which opens at the Columbus Driv-
ing Park next Monday, July 25, and
lasts for five days.

Secretary Harry Shepard of the
Columbus Driving Association has
arranged for an added feature for
the opening day's program Monday.
Peter Manning, 2:02 1-2, will be
asked to smash a world's record,
which was made on the local track
in 1909, and which has withstood
all assaults since that time. The re-
cord he will be asked to go after is
Uhlans' mark of 2:02 1-2 for five-
year-old geldings. To break it Peter
Manning must trot his mile in at
least 2:02.

Morton's Aid

CLEVELAND, O.—"Ginger"
Shinault, catcher, recently added to
the Cleveland American League
team from the New Haven, Conn.
club of the Eastern League, is giv-
ing much credit for the "come back"
of Pitcher Guy Morton of the
World's champions.

In the last series with the White
Sox, here the Indians were nine
runs behind when Shinault went in
to catch Morton and steadied Mor-
ton so well that the Indians won 11
to 1.

YANKS ARE BEATEN BY SPEAKER'S TRIBE AND GIANTS BURY CINCINNATI BY TAKING BOTH GAMES OF A DOUBLE BILL

Sothoron Hurls Great Ball And Humbles Ruth & Co.

CLEVELAND—Living right up to championship form Saturday, Tris Speaker's tribe of Indians played a neat game of baseball and edged farther away from their nearest rival for the league flag. They beat Babe Ruth and the Yankees by three runs. New York got none.

It was a neat game of baseball with Sotheron in perfect form. He allowed but three scattered bingles that failed to net the metropolitan crew a single counter. Babe Ruth got one of 'em, but it counted only for a single. The Indian score, however,

Defense May Call Gambler in Sox Trial

CHICAGO.—Arnold Rothstein, millionaire New York gambler may be called as a defense witness in the "Black Sox" trial, it was disclosed by attorneys tonight.

Rothstein, who has been mentioned by state witnesses in the case against the seven former White Sox stars charged with throwing the 1919 World series, has already ex-

were no errors.

The score:

pressed his willingness to appear in court as a witness, it was stated.

Testimony of "Bill" Burns, confessed baseball renegade who describes himself as the fall guy of the scandal brought out that the New York gambler was the man higher up in the "fixing" of the 1919 classic.

According to Burns, Rothstein promised to buy the world series for \$100,000 through his alleged agent, Abe Atell. If Rothstein could be placed on stand the defense believes it could refute to a degree the damaging testimony of Burns.

The "Black Sox" trial will be re-

WIFE WORKS FOR DAY'S WAGES

Objects When Husband Reduces Her Compensation.

CRITES DIVORCE SUIT UP

Seek Separation After 25 Years Of Married Life.

Are the services of a wife worth one dollar a day in the home and does it stand to reason reduction of that price is necessary, to \$10 a month, even tho the couple have reached the sunset of life?

This is the question which Judge F. C. Becker will have to decide in the contested divorce case of Mrs. Mary A. Crites against her husband, Reuben D. Crites, Amanda-top farmer. For the past three years the couple have continued to live under the same roof, but not as husband and wife. They were married 26 years ago last month.

They have reared to manhood and womanhood a family of seven children, four of whom are married. A son is now serving in the regular army. Their youngest child is Kathryn Crites, 12.

Mrs. Crites' testimony showed she was forced to take money secured from the sale of poultry and eggs to buy the groceries and sell products from her cows and chickens to provide furnishings for the house and for clothing for the children.

PAID \$1 A DAY
While Mrs. Crites remained under his roof he paid her one dollar a day for her service, but later reduced the salary to \$10 a month, she avers. His wife claims Crites has government securities amounting to \$2,000 and owns three acres of land. Testimony indicated Crites will come into the possession of 137 acres of land upon the death of his mother, now an aged woman.

Mrs. Crites testified his language to her and about the house was so cruel and abusive she has failed in health and that she is no longer able to assume the duties of her earlier years.

She asks the court to set off her property to her. The case was only partially finished Saturday and will be continued before Judge Becker Monday. More than 50 witnesses have been called to testify.

The trial attracted almost the entire countryside from Amanda-top, who came to Lima to hear the testimony offered in the case.

IS TOO FRESH WITH WIFE OF NEIGHBOR; HARPER DRAWS FINE

Dick Harper, colored, 334 N. Pine-st., wanted to make an engagement. But Harper's anxiety for a call cost him \$5 and trimmings.

Harper accosted Mrs. Eva Cox, his next door neighbor, and begged her to make a date with him. "Now don't tell your husband; what he don't know, won't hurt him," Harper pleaded with his neighbor, Mrs. Cox charges.

When Mrs. Cox told Harper she wasn't making dates with other men, Harper grew angry and resorted to licentious and obscene language. Mrs. Cox alleges.

She preferred charges against Harper in Justice W. Guyton's court and Harper was arrested. He said he was guilty when arraigned and the court imposed a \$5 fine, plus the costs.

Mrs. Cox is the mother of two children and did not give Harper any reason to request an engagement with her, her neighbors assert.

KOONTZ RETURNED

Gun User Brought Here From Kenton to Face Charge.

William J. Koontz, indicted by the recent grand jury on the charge of shooting with intent to kill, was returned to Lima by Sheriff Baxter from Kenton, Saturday afternoon. Koontz has been held in Kenton, after being arrested at Dola, upon advice from Lima police that he was wanted here.

Koontz, two weeks, engaged a room at the L. C. Carr boarding house on E. Market-st. When the landlord went to collect the rent, the charge is made that Koontz flourished a revolver and shot at Carr, starting to run, carrying his belongings in a suit-case.

Police pursued him and it is said he fired at them. He was under indictment in Hardin-co on the charge of carrying concealed weapons. Koontz was shot in the foot by police here and blood poisoning developed in the wound.

STATE BOARD TO SEND INSPECTOR

Condition of Spencerville Ditch and River to Be Probed.

R. C. Sweeney, special investigator and assistant engineer of the state board of health, will visit Spencerville Monday for the purpose of inspecting an open ditch which has been declared a nuisance.

Some time ago the Allen-co district board of health notified the village council of Spencerville and the Spencer-up Board of trustees to abate the nuisance arising from the misuse of an open ditch which runs thru the village of Spencerville. Practically all the sewage of the village is said to be emptied into this open ditch and the result is a menace to the health of the people. The ditch also runs thru a part of the school grounds and there has been considerable danger during times of high water, to the children playing there.

While in Spencerville Sweeney will meet with the village council, the township trustees, the county commissioners, the county board of health and the county school board, all of whom are interested in the settlement of the case. According to Dr. J. J. Sutter, county health commissioner, Sweeney will go over the situation and state what must be done to satisfy the state department.

It is believed that, after the examination of conditions at Spencerville, Sweeney will visit Lima and make an investigation of the Ottawa river. The letter advising the state board of health that residents along the river are petitioning the Allen-co board of health to abate the Ottawa river nuisance was received after the arrangements had been made for Sweeney to visit Spencerville. Unless other appointments have been made, the complaints here will be investigated also.

Dr. Sutter stated Saturday that everything points to an early investigation of conditions here and action by the state department. Meanwhile petitions are still being circulated among the farmers residing near the Ottawa river.

1,032,000 ALIENS IN NEW YORK

Dangerous Number Of Non Citizens In City

NEW YORK. — (By Associated Press) — Representative Isaac Siegel of this city, a member of the House Immigration Committee, estimates that in Greater New York there are 1,032,000 adults not citizens of the United States. This, he says, is a dangerously large proportion of aliens in a city whose total population is approximately 2,000,000.

To offset this condition it is planned to conduct an intensive drive this fall to gather these aliens into the United States' fold and civic, state and national bodies will assist in speeding up naturalization.

Early in October, President Harding will be invited to address a gathering of 15,000 new citizens in this city.

A systematic campaign is under way in Brooklyn to enroll new citizens. Judge Cropley will sit practically all summer in the naturalization court and under present arrangements will turn out a daily average of 500 new citizens.

All told it is estimated that in Greater New York there will have been added by the end of October enough new voters to increase the nation's electorate by at least 80,000.

FALL COLLEGE TERMS TO OPEN IN SHORT TIME

Lima Girls Planning to Resume Their Studies—Others to Take Up Teaching, Music, Art, Elocution and Physical Instruction—Increase Workers' Army

(By ROSEMARY CHRISTEN)
WHAT are Lima girls intending to do the coming autumn and winter? Sit idle at home? Not so. Almost every young girl is planning to take her place among the workers. Some are going east, some west and a few south.

Many are returning to their colleges to complete their education, but the majority are planning to engage themselves in interesting and enjoyable work of some kind.

Miss Margaret Gregg, daughter of Mr. and Mrs. R. T. Gregg, a student at the Chicago Musical School during the past year, will be instructor of music in the South Side high school. Miss Mary Parmenter, daughter of Mr. and Mrs. W. L. Parmenter, goes as an instructor in mathematics in a girls' private school in St. Louis. Miss Parmenter is a graduate of Wellesley College and last year received her M. A. degree at Columbia university.

Miss Mary K. Roby, daughter of Mr. and Mrs. J. W. Roby, who attended the Chicago Musical School during the past year, will give instructions on the piano, while Miss Martha Roby, a graduate of Ohio Wesleyan University, will teach art. Miss Esther Damaris Toy, daughter of Mr. and Mrs. O. N. Toy, will continue her work as an instructor in elocution. Miss Toy graduated from the School of Expression at the Ohio Northern university last year.

Miss Katherine Kahle, daughter of Dr. and Mrs. R. D. Kahle, a graduate of Ohio Wesleyan University, goes to Hampton to direct music in the high school. Miss Leona Hyman, daughter of Mr. and Mrs. M. Hyman, will go to Elizabeth, N. J., where she will have charge of the physical education. Miss Hyman was graduated from the Columbia University in the class of 1921.

Miss Harriet Scheid, daughter of Mr. and Mrs. Theodore Scheid, a graduate of Bluffton College, will have a position as organist in Temple Beth Israel. Miss Frances Townsend, daughter of Mr. and Mrs. T. E. Townsend, returns to Battle Creek, where she will continue her studies in physical education. Miss Margaret Stone, daughter of Mr. and Mrs. H. L. Stone, and Miss Helen Haegner, daughter of Mr. and Mrs. Fred Haegner, both graduates of the normal school at Ypsilanti, Mich., will take up teaching. Miss Stone will go to Marysville, Mich., while Miss Haegner will remain in this city.

A number of girls will return to the colleges which they attended during the past year, while others are contemplating a change. Others, whose names have not been mentioned, are considering teaching and other lines of work, but have not made definite plans. All in all, there will be comparatively few who will lead a "life of leisure."

Complimenting Miss Alvina Cardosi who recently returned home from a year's stay in Italy, Miss Alice Vonnella entertained at luncheon at the K. of C. Thursday.

SOFT SILK CREPES
MAKE FALL FROCKS

Canton crepes and other soft silks are again taking the center of the fashion stage with advent of new styles in fall frocks. Plain frocks with little or no trimming and very simply cut are the modes usually shown for early fall wear.

Gray canton crepe makes this pleasing model. It is made with a loose, low waisted blouse with set-in kimono sleeves. The skirt is plain and full and piped with navy blue crepe. Navy blue crepe bands also trim the sleeves, the shoulders, the belt and neckline. White pearl buttons, sewed on with navy blue thread, are the only other evidences of trimming. This frock is designed for afternoon wear or it may grace the informal dinner or restaurant supper.

Mrs. W. W. Beauchamp, N. Metcalf-st. is entertaining at her house guest, Mrs. T. K. Tingle, Los Angeles, Cal., a former resident of this city. Mrs. Beauchamp was the guest of Mrs. Tingle during the winter and for her pleasure Mrs. Tingle entertained a large group of guests at an attractive gathering at the Alhambra Hotel before her departure to this city. The following Lima residents were present: Mr. and Mrs. Val Cole, (Alice Hoover) Mr. and Mrs. A. Pflum and daughters, Miss Marcella and Mrs. Smith, and Mrs. Nellie Simpson.

LURE OF LAKES, MOUNTAINS AND SEASHORE CALLS

Late Season Vacationists Departing Daily for Summer Haunts, Far from Torrid City Streets—Social Activities Continue In City

THE lure of the mountain, the lakes and sea shore has taken fast hold of Lima people and day by day, week by week, one after another depart. Some go for a week-end, some for a half fortnight, while others, more fortunate, are able to spend a fortnight or even an entire summer.

As usual with those who are remaining at home, the young people are monopolizing things in a social way. They care not how the wind blows, how hot the weather may be, whether or not the day is featured by sunshine or with rain, they enjoy themselves nevertheless.

Wednesday, Miss Mary Roberts, daughter of Mr. and Mrs. A. W. Roberts, will entertain about 200 guests with a dance at the Shawnee Country Club, honoring Miss Louise Besaman, Mansfield; Miss Helen Schaad, Marion, and Miss Mary Faulkner, Bucyrus. Miss Roberts' guests will arrive in this city early in the week.

A number of affairs have been arranged for the pleasure of Miss Rae Heffner, whose marriage to Russell Greene will be an event of the near future. Monday afternoon, the Colonial Sewing club, of which Miss Heffner is a member, will entertain with a 1 o'clock luncheon at the Elks' home.

Tuesday Mrs. Clark Miller will entertain at luncheon honoring Miss Heffner and Tuesday evening Miss Zelma Rosfeld will receive a group of guests at dinner. Miss Heffner will be complimented again Wednesday evening when Mrs. Guy Custer will entertain, while Thursday evening Mrs. O. B. Steinbaugh will entertain at dinner at her suburban home.

Tuesday, Miss Helen Pence will entertain at 5 o'clock tea at the Hotel Norval.

Mrs. Ralph Austin, N. Collett-st., received a group of friends at her home for an informal musicale, Friday evening. The program was an interesting one, in which all present participated. At the conclusion of the evening's program the hostess served a dainty repast.

Friends of Mrs. Joseph Herring, Mansfield, formerly Miss Ola Carey, of this city, will be pleased to learn that she is rapidly recovering from an operation, which she underwent a short time ago at St. Rita's hospital.

IS DISCOURAGED WITH LIFE

Wholesome Advice Given One Who Has Lost Interest in Existence

Mother's Mode of Living is Abhorrent to "Innocent Daughter"

Dear Miss Smart: I have begun to feel discouraged with life. I don't know what the matter with me. I never had much education and it seems that I am not able to make anything of myself, nor make a success of anything I undertake. At times it seems useless to try. I feel inferior to everyone else and I know my life has been a complete failure. Is there anything which you would or could advise me to do? DISCOURAGED

YOU have my sincere sympathy, but I think you are much a fault. Don't admit that you are discouraged. Your life is exactly what you make it. Life holds much for you and all you have to do is to grasp the opportunities which await you. Cease your self-pity and your assertion that you are a victim of circumstances.

Let go of your past. Think only of the future. If you were not fortunate enough to receive a good education, be glad that there are plenty of facilities today by which you can better yourself. Become a good reader and listener and take advantage of the training classes for men and women who, as yourself, have been deprived of a thorough education or who are desirous of improving themselves.

Remember, your mind is limitless. Learn to plan and think for yourself. Do not worry yourself with trifles but fill your mind with new and high ideals, fresh purposes and aims. Once you make a start the world is at your feet.

Stop the foolish and unvalued for thinking that circumstances and conditions hold you. Perhaps you never stopped to think that it is you holding onto them.

Do not feel yourself inferior. You are not. This does not necessarily imply that you should be consoled. A concealed person never makes a success, nor is he or she well liked or respected. You are the sum total of your thinking. Think you are a failure and a disgrace both to yourself and community and you will find yourself to be such. Place your ideals high and not only strive to live up to them, but actually carry them out and let them be a part of yourself at all times.

Dear Miss Smart:

(1) How is my writing? I am 14 years old. (2) How can you tell if a boy likes you if you have never done with him? (3) When I go out with boys I never can find anything to say. I guess I am a little bit of a fool. I try to forget myself. Still I can't find anything to say. What should I do? (4) I have a mother who is not kind to me. I try to talk to her and explain that she should not go with other men, but she won't listen. My father does not know this. Should I tell him? Mother wants me to go with boys and to lead a wrong life but I won't do it. I want to be somebody when I grow up. What shall I do? I want my mother to understand this. She goes out every night. I stay home with Emily.

INNOCENT DAUGHTER

(1) Very good. (2) By his interest in your friendship and his amiability and courtesy toward you. (3) If you are not a bright and clever talker, do not feel that you are uninteresting. Far better than this is

possession of sympathy. Very often girls and women, who talk too much, are not favorites any place, owing largely to their saying unkind and critical things, very often without thinking. Instead of thinking only of yourself and your own personal affairs, further the development of the sweet sympathy in your character. Try to have a broad and kindly interest in the affairs of others. Find out the subjects in which your friends are most interested. Above all things be loyal to your friends and do not betray confidences. Be reliable, dependable, and you will always have friends. Do not tell your father this. No doubt your mother will soon realize her mistake and folly. Lead a good, clean life yourself and no doubt in time your mother will profit by your example.

Mrs. Alfred Brogan was pleasantly surprised Monday evening when a group of friends gathered at her home in celebration of her birthday anniversary. The rooms were prettily decorated with sweet peas and larkspur. At the conclusion of the enjoyable evening of music, cards and dancing a dainty repast was served. Mrs. Brogan received many pretty gifts.

Those present included Misses Blanche Wolf, Emma, Ruth and Bernice Clemons, Leota Hoyer, May Dolph, Mary Dillan, Louise Westbay, Ruth Roberts, F. L. Wayne, Paulan Heldman, Rawson, Pape, Messrs. Dalton Jones, B. Smith, Paul Crawford, John Evers, Shirl Hoyer, J. E. Harris, C. A. Kierns, Robert Jones, Mr. and Mrs. Vivian Earl, Mr. and Mrs. Donald West and Mr. and Mrs. W. L. Stokesbury.

Twenty-six members of the Lafayette Rebekah lodge met at the home of Mrs. E. C. Crist, E. Kibby-st. Thursday. At noon luncheon was served and the afternoon was enjoyed in social chat and other pleasures.

Those present included Mesdames Hawk, Meyers, Houser and daughter, Murray, McNeary, Akerman, Fisher, Eaton and son, Taylor, Binkley and two daughters, Gium, Shlider, Neiswander, Deseberg, Stodd, Lyle and daughter, Heffner, Patterson, Peterson, all of Lafayette; Mesdames Gium, Heffner, Munnaugh, Craig and two daughters, Kline and children, Watt and Crist, all of Lima.

Miss Mildred Young entertained the members of her Sunday school class of Olivet Presbyterian with a picnic at City Park, Wednesday. Those present included Naomi Geis, Pauline Kannan, Sylvester Lutes, Clarabel Young, Carl Kannel, Walter Sualle, Leona Dunahay, Barr Smith, David Vernon Stewart, Mr. and Mrs. Edward Schneider and the hostess.

Mrs. Edward F. Davaney, of Portageville, N. Y., who had been the house guest of her sister, Mrs. Louis Dimond and her brother, T. J. Buchanan, left Saturday for her home, accompanied by her little niece, Mary Catherine Dimond, who will visit for some time in Portageville.

Mr. and Mrs. Joseph Lemkuhl and sons, E. Kibby-st., will leave the first of the week for a short stay in St. Marys.

L. D. C. will hold an all day meeting and picnic Thursday.

Miss Virginia Deadricks is home from a visit in Chicago.

Mr. and Mrs. Charles Finley, Benzaps, left Saturday on an eastern motor trip to visit with relatives.

Mr. and Mrs. Earl Sealts, Hollandapts, left Saturday on a several weeks' motor trip thru the east.

Mrs. Lester J. Hudson, Huntington, Ind., is the guest of Mrs. Robert Krein, W. North-st.

GALAXY OF STARS BOOKED FOR LIMA THEATRES FOR PRESENT WEEK

FILMDOM'S BEST FOR LIMA FANS

Most Popular Artists of Screen
World to be Seen in Local
Theatres

List Includes Meighan, Hart, Tell,
Dowling, Novak, Welch
and Many Others

THE week's program at Lima movie houses looks promising. A regular galaxy of stars is scheduled to perform for the benefit of Lima patrons.

There are Thomas Meighan, William S. Hart, Olive Tell, Joseph Dowling, Eva Novak, Niles Welch and many others, all booked to play leads and sub-leads during the coming seven days.

And the pictures in which they are scheduled are adjudged to be above the average from the standpoint of action as well as stars.

For instance, take the feature of the Sigma's program for the first part of the week. The name of the picture is "The Lure of Youth." It is said to carry a message worth hearing.

The second part of the week will feature "Clothes," more of a discussion of that all absorbing problem of women of the day, than a mere photoplay. It will probably be very popular with the women of the city.

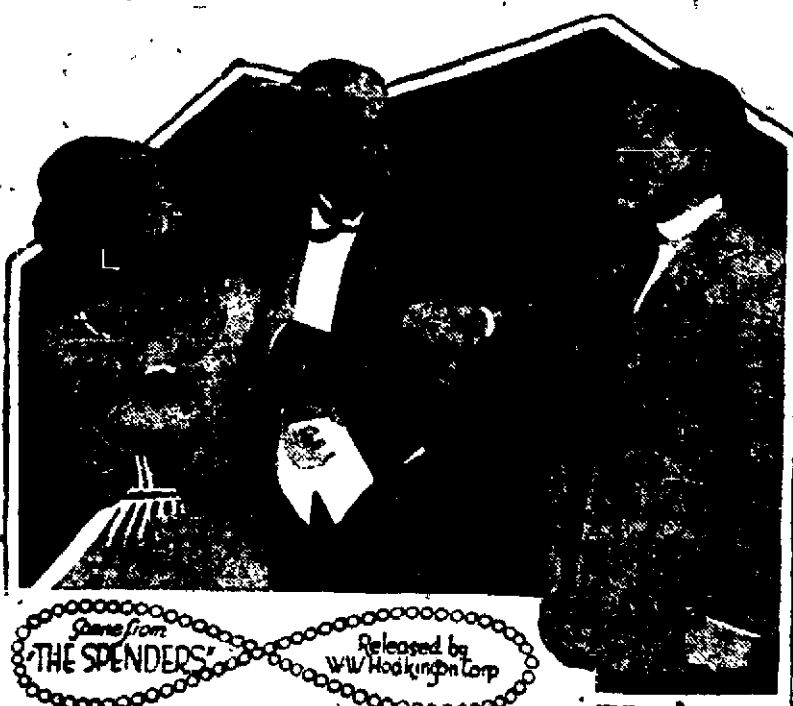

The Lyric is counting on "The Spenders" for their big attraction during the first half of the week. After having seen the picture some time ago in another city we can see that it is more interesting than the average photoplay.

The Faurot is starting right with Thomas Meighan in "The Easy Road," beginning Sunday. Since Lila Lee is also a member of the cast we are prejudiced in favor of this particular photoplay, because Lila Lee is about as interesting to look at as any woman on the screen, we think.

All in all, the outlook for the week is most encouraging. Hot weather, if there should be any, should mean nothing in the life of the movie fan, for the Lima managers have succeeded in making the theatres of this city, truly cool spots. Therefore, those anxious to see the pictures of next week can do so in comfort.

The Sigma's Pictures

"The Lure of Youth," showing at the Sigma Sunday, Monday, Tuesday and Wednesday. The picture is somewhat different than one's led to believe from first reading the title. The youth in this case is personified by a young man instead

At the Lyric theatre today and Monday, Tuesday, Wednesday.

of a young woman. Therein lies the originality of the theme.

It is the story of a woman's sacrifice for the sake of aiding a youthful playwright who gives evidence of a brilliant future. The development of the plot is somewhat out of the ordinary, and is possibly a little nearer real life than one thinks upon first reading.

It sounds like it is worth seeing. The second half of the week at the Sigma is devoted to "Clothes," in which Olive Tell is starred. The picture deals with the fondness of woman for clothes and the dangers surrounding such a fondness.

Incidentally the picture is featured by a variety of gowns and dresses that would be a delight to any woman. A distinct effort was made by the directors to use as many and as varied costumes as possible in order to give the public more than just a movie with an interesting plot.

The picture is a style show as well. The Sigma has also the usual news films and comedy pictures.

Pictures at Faurot

PARAMOUNT Pictures will be represented at the Faurot this week by Thomas Meighan and William S. Hart in two very popular selections.

Thomas Meighan has a fine character in "The Easy Road," in which he comes to the Faurot for four days starting Sunday. Beulah Marie Dix has adapted the story from Blair Hall's "Easy Street," and she has provided the popular Meighan with a role that will greatly please his legion of admirers. There is also a clever and engaging work by Lila Lee and Gladys George, who are the principal feminine members of the cast, and settings of real artistry. There is smooth handling and smooth acting all around. The

Pathe News, the Pathe Review and the Topical Digest are the accompanying features.

Hart moves in Thursday afternoon for a three-day stay in his latest success, "O'Malley of the Mounted," written and directed by the famous star himself. It is a story of heroic adventure in which one of the highly disciplined Northwestern Mounted Police goes after his man and meets with a problem not indicated in his rigorous training.

There is fine acting by Hart and Eva Novak, together with a large number of extra people and speedy action throughout. The eye is filled with picturesque exterior scenes and large ensembles. The most interesting of these is a natural fortress at a valley entrance, where a band of outlaws are securely entrenched, and some wonderful riding at what seems to be a genuine western rodeo, or round-up.

"O'Malley of the Mounted" will be accompanied by the Pathe News and the Paramount Magazine.

The Lyric's Pictures

BEGINNING with a thrilling race between a motor car and a train and winding up with a race between old and new brains, "The Spenders," being shown at the Lyric Sunday, Monday, Tuesday and Wednesday offers an insight in to young and old ideas—yes, both.

When young Percival Bines thinks he's going to be the Napoleon of Wall-st, and old Peter Bines, his uncle, realizes that the young man doesn't know enough of business for that, then's when the plot thickens.

There's a girl, of course. Claire Adams plays the lead feminine role and is saved, not by the young hero but by the old uncle. Nevertheless, the picture ends with young Percival supremely victorious. It's an interesting study of the ambitions of

"PEGGY PUTS IT OVER" AND RESURRECTS A DEAD HICK TOWN

"Main-St" ideas are taking everywhere, modern magazine stories, play and now pictures are cleverly adapting the Main theme. The newest picture to follow the idea, or rather to use, the idea of Main Street is "Peggy Puts It Over," a Vitagraph production.

Alice Calhoun plays the lead in this story of small town life and a very pleasing heroine she is, too. She plays the part of Peggy, a young girl who strives to put life into the sleepy town of her birth, where the townspeople were still driving each other and talking the proverbial bigosh lingo.

It was a hard uphill task, but "Peggy puts it over," even against the wishes of the man she loves, who would have the old town remain old-fashioned and not be modernized. The story is a splendid one for Miss Calhoun, whose beauty and sense of comedy find good outlet in the part of Peggy. Miss Calhoun's next picture will be "The Matrimonial Web."

BUSINESS CONDITIONS

BUSINESS conditions throughout the country are brighter now than for the last several weeks. While it is true that there has been no great movement towards increased activity, the fact that there has been a gradual trend in that direction cannot be disputed.

One of the most encouraging statements seen in recent weeks came yesterday from the National Bank of Commerce of New York in its discussion of current market conditions. This bank said:

The United States is practically thru the period of violent business disturbance which began in May, 1929. We will from time to time have visible evidences of the distressing conditions thru which the country has been passing, but these occurrences should be regarded not as indices to forward conditions but as relating to the past. The changes which have taken place have not as yet been recognized by the business public for two main reasons. The period of normal midsummer dullness now at hand has obscured the certain evidences of improvement and there has been lacking a thorough comprehension of credit conditions.

Failure to recognize the passing of the period of insufficient credit has resulted from lack of recognition of the fact that for a long time the credit shortage has been apparent rather than real and due in large part to the unsatisfactory character of some of the risks offered. There is now no bank credit available for operations designed to hold prices at fictitious levels. Orderly organized marketing, if fair, succeeds, but attempts to hold prices above the levels determined by international supply and demand are certain eventually to fail.

Altho occasional failure to secure desired credit accommodations has served to keep alive the impression that there is a shortage of bank credit, the truth is that there is now available a volume of credit larger than present business requires. The main requisite for a return toward normal conditions is the will to try for business on a level where it can be had. The period of general liquidation of the raw material markets of the United States has passed. Recent declines are due to conditions of supply and demand in specific lines. This is a normal condition. Wholesale prices of many classes of manufactures have been fully deflated. This is not true in all lines, but recent cuts in the price of steel and widespread reductions in wages indicate that adjustment in wholesale prices will not be long delayed. Retail prices show wide irregularities, and highest stock have been largely disposed of. Price stabilization is, therefore, not far ahead.

Locally, merchants now for a great part in the midst of their mid-summer sales, report good business. One concern, which offered exceptional values a few days ago, declared business was far greater than had been expected.

Good values are being offered at present in Lima shops. It is possible to buy many articles now cheaper than they may be purchased in the fall. Stabilization of prices will be a reality soon and with that era will come higher quotations in some lines, which are selling at cost or below cost of production now.

IN COLUMBUS

OBservers of the trend of things political, in a summing up of the situation in Ohio, state that they find the people generally in an angry frame of mind. They are dissatisfied over the state of affairs generally, affecting prices, unredempted promises and the not rosy prospect for the fall and winter.

The dangerous thing about the frame of mind into which the people appear to have lapsed is that their very apparent anger is not directed altogether at the leaders of one of the old parties, but is a measure at both of them. The punishment meted out to the Democratic party last fall has not been forgotten. They haven't altogether gotten over the sentiment that impelled them to rebuke the Bourbon organization, but just at present it is found that there is even more deeper resentment against the G. O. P., which bade fair to be a Moses to lead them out of the wilderness, with results eminently more unpromising than they saw last fall.

The same sentiment is extant all over the country and leaders of both parties believe they have reason to fear a flocking toward radicalism of some sort, if there was a strong leader to show the way. However, this is scarcely likely.

Governor Harry Davis' state cabinet, in a timorous manner it must be admitted, during the past week made a "demand" for a reduction of freight rates on all railroads, after Henry Ford's announcement affecting his line.

Director of Public Welfare MacAyeal announced that hereafter public sentiment will be consulted before pardons and paroles will be granted prisoners.

Declaring that Ohio is squandering money on public roads with wartime recklessness, Senator Charles Brand, of Champaign-co, made an attack on the state highway department for alleged extravagance. Highway department heads are in the rather peculiar position of declaring for cheaper highway construction after contracts covering well nigh the entire state program have been awarded at the highest figures ever known, possibly. It is like leaving the barn door open in the hope that somebody will steal the horse and after it is actually stolen, lock the door.

Charging that certain Ohio corporation have been receiving a special preference rate on workmen's compensation fund, Miss Rose Morlarity, the first woman member of that board, attacked her colleagues. That the stage was carefully set by the woman member, who believed she had "discovered something," was evidenced by the presence of Governor Davis' publicity agent, eager to secure material for propaganda.

Positive proof that the acts of the board prior to the coming into the job of Miss Morlarity were legal and regular were afforded to the satisfaction of everyone save the woman member. It was shown that the corporations complained of paid into the fund \$206,000 more than employees received. Thus another G. O. P. circus has floundered.

Effectiveness of the civil service law under the reorganization ripper act may be tested by the head of the union bureau, Jerome Watson, who was re-

moved by Percy Tellow, head of the Department of Industrial Relations. Watson is a Democrat. His successor is William Robinette, of Jacksonville, Athens-co, a Republican.

Dismissals right and left of Democratic employees are going on. Andrew Forbes, a hero of the world war, whose body bears the marks of 13 wounds received in battle in the Argonne and who drew \$100 a month as a watchman, was discharged to make room for a Republican. Forbes happens to be a Democrat. The American Legion is incensed and will ask Tellow to explain.

The principal contention of the week was the high cost of road construction under contracts let. The contractors won out handily.

IN WASHINGTON

In response to pleas by Governor Harry L. Davis, of Ohio, and state highway officials who are clamoring for passage by the Senate of a Federal-aid good roads measure favored by the House, Representative John L. Cable, of Allen-co, has introduced a bill appropriating \$105,000,000 to dispense to states that offer a corresponding amount, in order that the state may know what to expect. Senator Willis is expected to handle the measure in the Senate.

After President Harding opposed a tax on oil, that commodity was placed on the free list in the Fordney tariff bill by a vote of more than two to one in the House.

Further action on the anti-beer bill was delayed, in behalf of action on the Norris bill appropriating \$100,000,000 for loans to needy farmers. The anti-beer bill is Senator Willis' hobby.

Farm and grange organizations of Ohio have started a bombardment of protest against the proposed Senate recess until all agricultural legislation now pending in Congress is disposed of.

Republican and Democratic reports of the Senate naval committee's investigation of controversies between Former Secretary of the Navy Daniels and Rear Admiral Sims have been made public. Sims, the loquacious navy notable, whose utterances recently in London brought him onto the carpet in Washington, charged Daniels with extravagance and incompetence, but failed to prove anything, except, probably, that his attack was born of political hatred.

Plans for relieving the estimated shortage of 1,500,000 homes thruout the country thru diversion of a greater proportion of the nation's \$22,000,000,000 in savings deposits into home building are under consideration by Secretary of Commerce Herbert C. Hoover.

Either Secretary of the Navy Denby or Secretary of War Weeks must submit to demotion to a subordinate position, if Congress adopts the government reorganization plan now being whipped into final shape by Walter F. Brown, the President's chief organizer, which contemplates combining these two departments.

All members of the Ohio Congressional delegation signed a petition to Secretary of War Weeks, protesting against the sale of Camp Sherman, at Chillicothe. Senator Willis is backing the movement.

In record-breaking time the Senate passed the Sweet bill to consolidate all Federal agencies dealing with veterans and extending additional benefits to disabled former service men.

According to Senator Penrose, of the Senate finance committee, Republican leaders are losing hope of reducing either governmental expenses or taxes. Congress has passed so many measures that include big expenditures of money, economy cannot be afforded as was promised.

"Fire-Brand" Senator Tom Watson, of Georgia, is after the Federal Reserve board. He charges that the policy of bankers constituting the board has cost the American people an amount equal to the German indemnity. A bill was introduced that provides against the appointment of bankers on the board.

Many articles that were expected to be included in the list to be taxed under the Fordney tariff bill were ordered placed on the free list. Consequently, in its present state, the Fordney bill as a tariff measure is a makeshift at best. Levies on oil and asphalt were discarded and embargo on Ayres was lifted. Hides and cotton also escaped the impost.

President Harding and Senator Frank B. Willis are still at odds on the naming of a state prohibition commissioner for Ohio.

JUST FOLKS—BY EDGAR A. GUEST

THE FRIENDLY WAY

Oh, I would tread the friendly way, A place to fill and work and do, of the lanes where children romp and play, The children glad that I'm their dad—all that's my treasure store;
The hearty road of fellowship where brotherhood is found; I happy home in which to live, I do not want the sterner game where life is but a fight for fame, What further has this life to give?
Nor would I quit the valley fair to stand on higher ground. And where's the rich man with his wealth who really gathers more?
There is enough of riches here, enough of mirth and honest cheer, I would not shrink nor idly stand before the tasks which come to hand, To balance all the hurt and pain as time goes speeding by, I would not fail in duty's hour; but as each day comes to its end, if once my work is done, I am sure I have a friend, I would be, father to my own, a neighbor in my little zone, For greater wealth or greater fame, A man from among my fellowmen, I shall not give a sign, And friend to everyone.

WHAT THE STARS PREDICT

This day is ruled by threatening stars. Surgeons and physicians should be very prosperous at this time.

There will be much discussion of religious matters and it is prophesied that there will be an open break in more than one church.

The coming year should be marked by great activity among engineers, and builders, who should enjoy great profits.

This government of the stars is not favorable for women, especially those engaged in public affairs.

CINDERELLA TODAY

By RUBY M. AYERS

There was a little lump in her throat. "Anyways, doctors don't know anything," she said presently. "If I were you I shouldn't believe anything they say. Oh, my hat!"

The wind had torn her hat from her head and whirled it away into the darkness.

She folded a handkerchief into a three-cornered shape and tied it over her head and under her chin.

"There, that will stay on better than a hat," she said cheerfully. "And now we can go on."

"And what," said Pauline, presently, "are we going to say when we get home?" There was a faint anxiety in her voice.

"There won't be any need to say anything," he told her easily. "When we get to Marley you can go on and I'll wait—until I know a London train is in. I'll just walk in off the London train, and there we are."

Pauline gave a sigh of relief. She was straining her eyes through the darkness ahead of them. Already she could feel that Stanford unconsciously leaned on her and that his steps were slower.

"How old are the babies?" he asked suddenly.

"The babies? Betty's three and Joan's five."

"I shall want to buy a toy gun and send it to Betty."

"Will you? Oh, how lovely! They don't get many toys. Julia's ever so poor; she only has her separation allowance and a little that they managed to save out of the business. But she never complains. I don't think she minds anything. I only John comes back all right. She just adores him."

"Lucy John?"

"Yes, he is," said Pauline. "And—Guy? Do you like Guy?" She asked with a note of eagerness.

Stanford made a little wary face in the dark.

"Yes," he said. "He seems a very decent chap."

"He was awfully good to me when we all lived together," she said. "And after they sent me to school he used to send me things whenever he had any money to spare. It wasn't often, as they don't pay him very well; but some day, when he gets a leading part, we're going to have the time of our lives."

"You—and he?"

"Yes. And that reminds me—" Pauline drew her hand from his arm and groped in a pocket. "He gave me five shillings, so now I can pay you back the eightpence for my railway fare."

"Don't be ridiculous!" Stanford's voice sounded offended. "I might as well offer to pay your sister for the meals she has given me."

"But I've got the money now—and I'd much rather pay," she protested.

"There is no reason why you should take money from Boulton rather than from me," he said, obstinately. "Not so much, in fact, seeing that I have plenty, and he—"

"But he's given it to me lots of times before—please, I would much rather—"

"If you offer me that infernal eightpence I shall throw it over the hedge," said Nicholas with deadly calm.

"Oh, very well—if you're going to be silly—but I like to pay my debts—"

"So do I; when we get in you can let me have the bill for my lunch and tea and supper, also for the hire of the chair I sat in for the greater part of the afternoon and my proportion of the coals that were burnt and the gas."

Pauline laughed.

"But you helped lay the meals and clear away! That balanced it all," she said. She dropped her purse back into her pocket.

"While you are about it, you might return what you took out of one of my pockets a week ago," he said.

"What I took—oh!" she laughed, nervously. "That wasn't yours, anyway. Besides, how do you know I took it?"

"I know who does the family mending," Nicholas answered, with unconscious softening in his voice.

"Who told you?"

"Nobody—but I have eyes."

Pauline chuckled.

"That button will never come off again," she said. "I sewed it on so tight—"

"You did, and I am very much obliged."

"It was my ribbon—"

"Finding's keeping, and I picked it up in the hall."

"It's no use to you."

"He seemed to consider the point."

"Don't know that it is," he

agreed. "But I want it all the same."

He stood still suddenly, drawing a long breath.

"Let's see what the time is; luckily I've got a luminous watch."

He pulled back the cuff of his coat, and he and Pauline bent together over the little pale dial of the watch.

"A quarter to ten!" they said together in dismay.

"How far have we really come?" Stanford asked.

"Not much more than a mile, I'm afraid," Pauline said falteringly.

"Humph!" Then at this rate, allowing for me to walk more swiftly as time progresses, we shall get home about six in the morning!"

Pauline laughed hysterically and two big tears stole down her cheeks.

"Pauline," said Stanford, with sudden suspicion, "are you crying?"

Pauline gulped back a sob.

"Of course I'm not—I—yes, I am. Of course I am—but, oh, look! 'Look!' she cried. 'There's someone coming—there's a light thru the trees! Look! Two lights! So it must be a cat! Oh, thank goodness, you won't have to walk any farther! And, of sheer relief, she began to cry in real earnest."

There was a little silence.

"It was only on my account that you were crying," Nicholas said, in a queer voice.

She flashed round on him.

"Of course it was! Do you think I minded the walk for myself? Why, I've walked it dozens of times."

trousers. I'm sick to death of it, I am. Only hope I get a wife like you, Sister Cherry," he finished.

"How the old maids round town will grieve and gossip over this news," said Jane with a wicked look in her eyes. "You're sure started something Cherry."

"It was bound to come sooner or later," said Cherry quietly. "I'm going up to my room now, so if mother asks for me please say I have a headache and won't be down until lunch time." And with a nod she left the room.

It was all as Cherry had said. The morning before she had plucked up enough courage to interview the Hamdens, father and son, in person. Mr. Hamden Sr., was warm in his reception of her ideas, and as he watched Cherry transfer a dandy Wellsburg idea of a hat into a fetching "creation" while she talked to him, he accepted her on her own terms there and then. Cherry furthermore received his permission to alter every hat in his shop immediately, as well as to arrange a millinery display for the new fall hats in any style she wanted. The arrangements were most satisfactory both for the new designer and for Hamden & Son.

A WIFE IN THE MAKING

By PHYLIS PHILLIPS

The bomb burst two days later, when Mrs. Randall, Sr., opened her "Wellsburg Leader" and read the announcement that "Hamden & Son Edward Randall, Jr., for their mild engaged the services of a lady department," followed by a resume of Cherry's past experience in that line and a glowing description of her ability to make the women of Wellsburg happy and beautiful by the aid of her clever and fingers!

"Well, I never," asserted that lady as she read the announcement, then passed it over to her son. "We really must speak to Mr. Hamden about this outrageous write-up. Ned. It makes us look like fools."

Her son took the paper, then looked over at where Cherry sat looking out into the crisp September sunshine.

"Do you know anything about this nonsense, Cherry?" he asked curiously.

"It's truthful nonsense, Ned," she answered gravely. "I had an interview with Mr. Hamden yesterday, and accepted the position, just as the paper states. I have fashioned hats ever since I was fifteen, and there is nothing I love better to do. We are all entitled to a profession nowadays, as you yourself have often said before we were married, and I felt that I had loafed quite long enough for any energetic young woman. Mr. Hamden's salary is a satisfactory one, and shall be working from 10 to 3.30 only. So you see it is not hard labor at that."

Edward Randall went white to the lips as he listened to his wife's words. He said nothing, however, merely nodded his head, then excused himself hurriedly from the table. He kissed his mother goodbye, but never noticed Cherry again. A moment later he went out, slamming the front door behind him.

Mrs. Randall, Sr. jumped up suddenly from her chair and ran out after him.

"Ned, Ned," she called. "I want to speak to you a minute," and she followed him out into the garden.

Cherry sat on and finished her coffee as calmly as she could. Jane and Jack ate in silence, then a giggle broke from the former and a snort from Jack.

"Congratulations, Cherry," said Jane, between giggles. "You have a lot of spunk. I only wish I had the same, dear old Ned is grilling me."

In First Cost and After Cost, the World's Greatest Motor Car Value

The Cadillac has always stood, and stands now, the world over, in a class all its own.

In Europe—England especially—no other American car is ever mentioned, or even considered, in comparison with the Cadillac.

And in America, you know the overwhelming preference in which it is held by owner and non-owner alike.

And yet, strangely enough, those cars which strive for comparison with the Cadillac have always been, and are now, higher in price.

So there is a double sense—a greater and a lesser sense—in which the Cadillac is clearly the most notable motor car value in the world today.

The greater value of the Cadillac—on which its reputation rests—is its superior performance, and that immunity from the need of constant tinkering, adjustment, overhauling and repair which renders it unique among motor cars in economy.

This is the true value-test beside which the lower first price the Cadillac owner enjoys is of little or no consequence.

Nevertheless, it is pleasant for the Cadillac owner to know that in first cost, as well as after cost, he enjoys the greatest motor car value in the world today.
